

The Cameron Herald

SINCE 1860—ALL HOME PRINT NEWSPAPER EVERY THURSDAY MORNING

VOL. NO. 75

CAMERON, MILAM COUNTY, TEXAS, THURSDAY, APRIL 9, 1936

NO. 51

NEW HIGHWAY PLANS ARE DISCUSSED HERE

Plans to build Highway 69 which runs from Bartlett to Madisonville were under discussion here Wednesday afternoon at 2 o'clock. The meeting was being held under the auspices of the Camber of Commerce.

Albert Collins, president, could not be present but Rev. O. C. Acrey and Secretary Paden were in attendance.

The road runs through Cameron and to Hearne by the way of Maysfield and Port Sullivan. It is regarded as the most important roadway proposed in recent years.

FEE PAYMENTS WILL NOT PAY SALARIES

Fees in the sum of \$3,066.83 were paid into the treasury of the county for the month of February.

Indications are these payments will run far short of the amount necessary to pay the county's big salary bill under the new constitution.

The amount given here for February includes payment from the office of assessor and collector of \$2292.82 and a portion of this being from the January fees which were not reported at the time publication was given to the first receipts.

The peak period has been passed in this office which is one of the largest of the fee contributions under the new law.

Nabours Will Lead

It remained for Homer Nabours, county clerk, to maintain the highest batting average in support of the treasury. His office was averaging better than \$500 per month thus far. Fees for March not available from other offices Tuesday amounted to \$525.80 while in the February total he paid in \$597.25. The January total was larger. Mr. Nabours will be the largest of fee payers in the county government.

Salary Toll Large

While no figures are compiled at this writing it is estimated that the annual salary bill of the county will be around \$50,000. This includes all salaries both newly compensated fee officials and standing salaries under the old system.

Law Is Bad One

The people of Texas will soon realize the error made in adopting this amendment to apply to all counties alike, it was pointed out. The treasury of the county will be hard pressed in time to pay these sums because fees in a majority of the offices will run far short, if present ratios are indicative.

Following is the February payments:

District Clerk	\$ 51.70
County Clerk	\$ 597.25
Sheriff	\$ 56.45
District Attorney	\$ 45.90
County Judge	\$ 22.71
Assessor and Collector	
Jan. and Feb.	\$2292.82

Old Saddle Finds Place In Museum At The Herald

The wooden tree of an old saddle found its way to the museum of the Herald last week when Jeff Hefley of Bryan, made a contribution to the ever widening exhibits.

This old saddle, according to Mr. Hefley, belonged at one time to the late D. Millican, a pioneer settler who built the old town of Millican between Bryan and Navasota. Travelers along the highway can still see evidences that here once was a large town.

The saddle is the Mexican type widely used in the Seventies and earlier. It has a large flat horn and a low cantle with the center vent for use as a pack saddle. Only a few pieces of leather remain with the tree but generally the raw hide covering is intact.

The Millican family got an early land grant around Millican in Grimes county. It was at this place that Sanger Bros., began their career as merchants in Texas. It was the terminus of the Southern Pacific and the destination of wagon trains that hauled lumber to build the homes and cabins of the pioneers at distant inland places. Like many of the boom towns the march of progress left old Millican with but few reminders of its one time glory.

Haven of Worship

Still serving as a place of worship after more than two centuries, the Mission La Bahia del Espiritu Santo is one of Texas' most historic shrines. In Goliad, where its crumbling walls rise beside a winding road, James W. Fannin and his gallant band of Texans committed their lives to the cause of Texas freedom.

VERNON G. MILES TO BE BAPTIST PASTOR

Rev. Vernon G. Miles, pastor of the Baptist Church in DuQuoin, Illinois, has accepted the call to be pastor of the Baptist Church in this city.

O. L. Kidd, chairman of the pulpit committee of the Baptist church here, said Rev. Miles is expected here the first of May.

Rev. Miles is a native of Texas. He is a graduate of Baylor University, Waco and also of the Seminary at Fort Worth. He has pastored in Oklahoma, but for the past five years in DuQuoin, Illinois.

Rev. Miles married Miss Bernia Tyson, daughter of Mr. and Mrs. Arthur K. Tyson of Calvert. She is a graduate of Baylor College, Belton, and before her marriage was on T. C. Gardner's B. Y. P. U. staff of state Workers. Rev. and Mrs. Miles have two children.

Doctors For Him

DR. W. R. NEWTON
Candidate for the State Senate

52 Votes Cast In City Election Tuesday

Low tide was registered in the city election Tuesday when only 52 went to the polls to elect their officers for the next two years.

Proof that all election interests center in the primary is proven by this small poll on Tuesday.

The result:

For Mayor:	Chas. C. Smith	49
For Secretary-Treasurer:	Dan Tyson	52
For Attorney:	W. A. Morrison	52
For Assessor-Collector:	W. H. Stafford	52
For Marshal:	Gene Smith	51
For Alderman No. 1:	Roy Griffith	52
For Alderman No. 2:	E. O. Schiller	52

Ad Hall Staging Athletic Shows For Sweater Fund

The first of a series of athletic shows was staged Saturday night, April 4, at the Ad Hall School between the Farmers and the girls basketball team.

These shows include the most spectacular games of the season and are being given to raise money in order that the boys and girls of Ad Hall may be awarded sweaters at the end of school.

The farmers line-up is as follows: Louis Orsa, Hugh Baker, Frank Pfardrescher, Austin James, Sam Lawhon, Leonard Carlton and Julius Provasek. The girls line-up was as usual.

The first game proved to be interesting, exciting and very comical. The next show will be given Thursday night, April 9, when the Farmers meet the boys squad. The boys are to have one arm tied behind them.

If you are craving a thrill, don't miss this next game as it is guaranteed to be thrilling and comical.

J. B. WHITE

The question as to what are right prices dates back many centuries. No doubt under the shadow of the pyramids of Egypt the seller and the buyer argued often on whether the price tag told a lie. In different periods men have had different ways of arriving at what they considered right prices. It is held that previous to the latter part of the eighteenth century the normal side of this question was given more consideration than it receives today when prices are regarded perhaps too much an economic question.

We should fare ill, however, if so large an element as the moral element is felt to be, were left out of consideration. The economist may look on our social order as an industrial mechanism, but he will have difficulty in persuading the vast majority of our citizens that there is not a right and wrong even in matters that pertain to price.

Popular opinion is likely to agree with that of an expert who recently defined right prices as "prices which will make goods move." The mere possession of a commodity does not always give the possessor the right to charge whatever he pleases. He may charge all the traffic will bear, but the public has of late taken a somewhat wholesome interest in seeing to it that the traffic isn't made to bear too much. It has been known to do its buying in places where the traffic is made to bear a little less.

As the public becomes more and more exacting in its demand that prices shall be right, it becomes more and more the problem of the seller to convince the buyer of the reasonableness of his prices. As long as we can maintain flexible and competitive markets free from artificial control, it will be increasingly difficult for the seller to push goods at any but the right prices.

Man is such an infinitesimal speck in the inconceivably vast universe, say the agnostics and skeptics, that it is incredible that the infinite forces that developed all this immeasurable system of worlds can consider or think of our poor little spirits. We are but specks of dust in infinite space, soon to be swept away, they say.

This point of view looks at things on the basis of quantity rather than quality. A diamond, for instance, is an extremely tiny thing in size, if you should compare it with a square mile of the sand of the Sahara desert. If all the sand on that square mile could be put on scales, it would weigh billions of times as much as that tiny little diamond in the palm of your hand. And yet that diamond is much more valuable in the world's markets, than all that square mile of sand.

So with human life. The power to think, to feel, to love, to create, to organize, existing in human being, is vastly more significant than a whole dead star with no life in it, even though that star is 1000 times bigger than our earth.

The human beings on this earth, with all their achievements and possibilities, are worth infinitely more than a whole universe of dead stars carrying no life, even though there are billions of them.

This doctrine was an essential part of the message of Jesus. He gave his life for that belief. The Christian world feels that he still lives, and has demonstrated that others shall live also, and that a human (Turn to page 12)

C. N. Green & Son In Big April Sale Of Merchandise Here

Buyers are being well treated in Cameron this week end with the C. N. Green & Son store offering big opportunities for spring purchasing.

Of especial interest is the food sale with a car load of new merchandise in for the event. Lower prices prevail and the store is putting on a store wide event. Quality foods will figure largely in the sale.

Chas. F. Green, advertising manager of the store has an interesting message in this issue of the Herald.

Farmers Mass Meeting is Called for Friday April 10

A mass meeting to explain the new farm bill to Milam county farmers has been called for Friday night, April 10, it was announced by George Banzhaf, county agent here late Tuesday.

The meeting will be held in the Yoe High school in Cameron.

George Boling of Taylor, farmer, will be the speaker for the evening. He is well versed in the world cotton problem. All Milam county farmers are urged to attend this meeting.

LATE NEWS FLASHES

HARLAN WINS

Complete returns from Precinct 2 show that Voss Harlan of Branchville has been elected over F. R. Durnie of Curry for a place on the county school board from Precinct 2. The vote: Harlan 221; Durnie 205.

DOCTORS FOR NEWTON

Milam County Medical Society in session here Tuesday night gave a solid indorsement to Dr. W. R. Newton's candidacy for the state senate and will give wide publicity to the resolutions.

ELECTION BULLETIN

From incomplete returns it was conceded that John Kuzel had defeated Paul Fuchs for a place on the County Board of Education from Precinct 1 and Voss Harlan of Branchville had apparently won over F. R. Durnie of Curry from Precinct 2.

Election Returns Are Delayed

A poor system of gathering election returns prevents the Herald this week bringing to the various districts of Milam county the results of a poll taken last Saturday for school trustees and members of the County Board of Education.

It was believed that a compilation would be made by next week and details will be published in the Herald.

On the face of incomplete returns, John Kuzel of Corinth has defeated Paul Fuchs of Buckholts, veteran member of the county board from Precinct 1.

F. R. Durnie of Curry was slightly ahead of Voss Harlan of Branchville for a place on the board from Precinct No. 2.

O. D. Graham running for trustee at large from Thorndale was re-elected without opposition. E. B. Phillips of Rockdale is Chairman of the Board and Will Spiegel of Sharp is the other member.

It was indicated that some districts did not hold elections.

Our Mistake

In a statement by Roy Law, candidate for County Judge, published in the Herald last week an error occurred. Mr. Law made the statement that he is one of the original advocates of the old age assistance. In the published text it was said that he was the original advocate of the plan. The Herald wishes to correct this error and state in addition that Mr. Law's modest claim is that he was among the early advocates of the Old Age Pension and not the original advocate.

—The Publishers.

Cameron's Band Plays Concert At Marlin

Cameron Band under direction of Francis Cox, played a concert in the auditorium of the grammar school in Marlin Thursday of last week.

This concert is one of two to be played prior to the state contests in Waco. The Marlin concert was given wide applause by hundreds of students and faculty.

In a 45 minute program of diversified music the band gave one of the most impressive recitals in its history.

Leather Lung Fad Begins

By The

PEEPING REPORTER

"Well, old leather lungs is doing it again!"

To say the least, that is the talk that is going around town, and of course it started on the campus of "Dear Old Yoe High."

Coach L. C. Wood developed a pair of good leather lungs last season, while trying to teach a group of over grown "block heads" the art of foot ball and they are "coming in handy" this season—keeping a squad of bantam weights awake. Earl Peck says it must be spring fever.

The Athletic Council should be developing their lungs a bit too—because they will be wanting to shout their greetings to the boys next fall, and of course, they must be heard by all four blocks around. That is loyalty to the team—and good business too.

The dads will have to install leather lungs also, because the mothers must be inspired by the "coaching" from the "stands" and made to believe that no one is a greater hero than her "Joie." If mothers can be won over then the dads have a "cinch" on getting away from bridge tables at least one night out of each week.

Of course Coach Wood will produce a football team by next fall if he has to send to McGregor after it, because jobs aren't easy to find you know. So—we may all rest assured and begin our lung developing now—we may even get some instructions on "Better and Louder Lungs" from Professor Perrin if the gymnasium funds turn up a bit short.

Every football player must have good lungs and of course the one that is fortunate enough to have the best lungs and capable of causing the greatest amount of disturbance in the class room will, without doubt be "the" star of the eleven. Luther Poole is keeping in good shape and if he can manage to get kicked out of school a few more times, he will have all the honors "sacked up."

Well, leather lungs are great things—they may help to solve the dust storm problem—anyway they will pay university expenses.

Store at Branchville Burglarized Friday

Niley Smith's general store at Branchville was burglarized Friday night of last week.

The burglars took equipment from the Smith garage and crawled under the floor to make entrance by boring holes in the planks and lifting them clear.

Merchandise including gloves, suspenders, ladies' underwear, was reported to Sheriff Kennedy as missing.

Acting Secretary of U. S. Navy Tax Payer In Milam County

The recent naming of a battle cruiser of the United States Navy, an account which was widely carried in the press, calls to mind another boy who left the oak groves in eastern Milam county and found a large place against the sky of his day and generation.

Our attention to this interesting occurrence is called by Roy Law, former tax collector and now a candidate for county judge.

Rear Admiral Adolphus Andrews, acting secretary of the Navy, is from the family of early Andrews who lived at Gause. Acting Secretary Andrews who made the announcement of the naming of the new cruiser, owns 269 acres of land near Gause and each year pays taxes on the tract.

The Andrews tract is now leased by Judge J. A. Ely of Gause.

Curtis Morris, Longview, assistant secretary of the East Texas Chamber of Commerce, visited in Cameron this week.

A. J. Frisby of Crockett, former pastor of the Cameron Gospel Tabernacle, preached in Cameron Sunday April 5 at the Tabernacle at both morning and evening services.

White peas for sale 5c per pound; also sweet potatoes. J. P. Hefti, Maysfield, Texas.

FARM CLUB NEWS

TIMELY GARDEN TOPICS

A good beginning is most important according to Mr. J. F. Kosborough, Extension Horticulturist, who gives the following tips for spring gardening:

Dip Sweet Potatoes—Before bedding sweet potatoes, discard every one that shows any black spots or shows any sign of disease. Those to be bedded should be dipped for ten minutes in a solution of 1 ounce of bicloride of mercury to eight gallons of water. When the slips are pulled from the bed, dip the entire plant in a solution made in the same proportions. If the slips are set in clean soil, there should be no "rotten luck" in keeping them this fall.

Give Cabbage Lots of Space—In a spacing test at the Weslaco Experiment Station, best yields of cabbage came from plantings 14 inches apart in rows 36 inches apart. Closer plantings failed to give as good heads or high yields as the wider spacing.

Popular Spinach Varieties—In a spinach variety test at the Winter Haven Experiment Station, the following varieties ranked in order given for highest yields. 1. Giant Thick Leaved; 2. Prickley Winter; 3.

Bloomsdale; 4. Virginia Blight Resistant; 5. King of Denmark; 6. Broad Flanders; 7. Longstanding Bloomsdale and 8. Juliana.

WHAT TO PLANT NOW

Butter Beans—First plant butter beans, using the Henderson Bush variety as a bush type and the Florida variety for the pole or climbing type.

Vine Crops—The ground is now warm enough to plant the vine crops, such as squash, cucumbers, cantaloupes, and watermelons. To insure a stand of these plants that sometimes germinate poorly, mix equal parts of rotted manure with the soil covering the seed. The manure will prevent crusting of the soil and will enable the tiny plants to come up easily without having to lift a load of run-together soil in order to see daylight.

Squash—I suggest that you use the Yellow Straight neck variety of squash because we need yellow vegetables in our diet. Yellow vegetables furnish vitamins which build up the red corpuscles in the body to guard against infections. Try a dozen hills of the Fordhook squash. They mature in late summer and can be stored for winter use.

Cucumbers—For large sour pickles, plant Davis Perfect or Stays Green cucumbers. For small ones to be made into sweet pickles, plant the Chicago Pickling variety.

Cantaloupes—If you are planting cantaloupes this week or next, don't forget to plant Perfecto or Hale's

Best for home use. These varieties have thick, tender sweet flesh with small seed cavities that make them very desirable.

Tomatoes—It is also time to set out tomato plants in the home garden. A row of Cherry tomatoes should be planted in every West Texas garden. This variety does not shed the blooms and bears all summer. It is good for salads, canning and for tomato juice.

Pepper—Every garden should have a few plants of hot pepper and a full row of sweet pepper. California Wonder is an excellent variety of thick walled sweet pepper that should please every home gardener. Peppers contain vitamin A which keeps our bodies built up against infection. Eat a pepper instead of a cough drop to keep down summer colds.

Clean your Vegetables in the Washing Machine—If your mustard, turnip tops or spinach are gritty and are to be canned, the family washing machine may be used for removing grit. Handle the leaves in the same manner as washing clothes, except no soap is needed. No damage is done to the leaves in cleaning.

Major and Mrs. Morris Brown of Allen Academy, Bryan, were week-end guests in the city of Mr. and Mrs. John R. Hays.

Mrs. Carrie Bell Houston and Kruse Bell and daughter, Carolyn of Borger, were guests of Mr. and Mrs. Jesse James over the week end. Mrs. Bell is Mrs. James' mother.

Real Comfort - Right In the Heart of Houston

Unexcelled location for the busy guest, with all modern comforts and conveniences--and at a PRICE within reach of any purse.

Cotton Ball Spring Feature of Social Program at A. & M. College; Cameron Boy is Prominent

Centennial's Cotton Festival at A. & M. College under auspices of the Agronomy Society on April 3 struck a high note of interest throughout Texas social circles and numbered in its official personnel a Cameron boy, Niley J. Smith, Jr.

The Cotton Ball was given in the gymnasium. The stage represented a great cotton plantation of the Old South and featured an old colonial southern home that occupied the expansive stage. In the picture were the queen and king of the Centennial Cotton Carnival, Miss Nelle Bone of Fort Worth and R. L. Huckabee of Holland. Near the plantation home could be seen the cabins of the negroes with a group of blacks gather-

ed about and at intervals singing old southern melodies.

The king was selected from the senior class at A. & M. and the queen was selected from College of Industrial Arts at Denton.

Miss Dorothy Bowman of Houston, one of the representatives of the Agronomy Society of A. & M. at the Cotton Ball and whose photo appeared in the Houston Chronicle Sunday, March 29, was escorted by Niley J. Smith.

Mr. and Mrs. Niley J. Smith of Cameron went to the College for the ball Friday afternoon April 3rd.

Proceeds from the Ball go to a fund to further students in the study of cotton and the textile industry of the country.

D. A. R.

Sarah McCalla Chapter Daughters of the American Revolution, met with Mrs. Sam McWhinney at her country home near Buckholts, Thursday of last week.

Those from Cameron attended were: Mrs. Pearl Clement, Mrs. Jeff T. Kemp, Mrs. W. T. Hefley, Miss Aetna Smith and Mrs. W. G. Gillis.

Programs of the Chapter for 1936 are made more interesting because of the Centennial Celebration for Texas. Miss Gillis was leader of program on "Texas Wild Flowers."

Miss Smith gave a report on the State Conference which she recently attended in Dallas.

Mrs. McWhinney served a delicious salad plate to her guests of the afternoon. The home was appropriately decorated in keeping with the program with Texas wild flowers.

HOLLOWAY-LAMME

Miss Fanny Holloway and Mr. Toney Lamme were married Saturday, April 4 in the home of Mr. and Mrs. Harvey Radtke. They were married by Rev. J. Coy Williams of the First Methodist church in a ring ceremony at 10 p. m.

Those present for the wedding were Mrs. Hall Tyson of Maysfield, mother of the bride; Mrs. Clinton Miller, sister of the bride; Mrs. Mary Radtke and Bill Radtke; Mrs. J. G. Hill, Mrs. Katherine McCandless, sisters of the groom; Agnes Harber and Misses Annie and Rosa Zarosky.

CAST IN PLAY

Miss Mattie Bess Coffield of Waco, niece of Mr. Earnest Coffield of Cameron and Miss Ida Byrd Mayfield, daughter of Mr. and Mrs. J. C. Mayfield here, are two of the Baylor Little Theatre cast of the play "L" which is to be presented at the Texas College one act play contest in Houston Wednesday April 8 in competition with other Universities of Texas.

Prof. Paul Baker is director. It will be remembered that Baylor scored high in the contest last year in the presentation of "A Matter of Principle," Prof. Baker being the director of the play also. He says the production this year is far better than that of last year.

DR. AND MRS. BRINDLEY HOSTS

Dr. and Mrs. C. G. Brindley entertained at a dinner Friday afternoon and guests for the occasion were Dr. and Mrs. W. R. Newton, Jr., Dr. and Mrs. Thos. L. Denson, Dr. C. G. Swift and Mr. and Mrs. James L. Coleman.

The table was beautifully laid with a cloth of white and green linen and centered with pink carnations and fern falling gracefully from the crystal basket. Pale green tapers in crystal holders with crystal prisms completed the decorations for the table where a lovely four course dinner was served.

After the dinner guests were invited into the living room where contract bridge was the diversion of the evening. Dr. Newton received a Foster vase as a reward for high score.

42 CLUB

On Thursday afternoon members and guests gathered at the home of Mrs. Frank Lesovsky for the regular meeting of the 42 Club. The reception suite was adorned with bright spring flowers suggesting the Easter season, which was the motif for all appointments.

After a number of interesting games four tables of players were served attractive plates of individual decorated cakes in basket shape and cream moulded in the shape of the Easter lily, accompanied by mints in pastel colors.

The tables were centered with green nests containing small candy eggs in the mint shades.

WEDDING

A wedding of great interest to friends in Milam county occurred on Saturday night March 28 in the home of Mr. and Mrs. E. R. Dabney at 3200 Harris Park Avenue in Austin when their daughter, Miss Mary Juliette Dabney became the bride of O. V. Fontaine of Jones Prairie.

The bride is a graduate of the University of Texas, her father being connected with the school.

Mr. and Mrs. Fontaine are to spend some time in Milam County where he is superintending W. P. A. Road work in this county.

Mr. Fontaine is the son of Mr. and Mrs. J. P. Fontaine of Jones Prairie. He graduated from Yoe High School and later attended Sam Houston State Teachers College at Huntsville.

DORIS MORGAN HOSTESS

Miss Doris Morgan was hostess to a number of her friends on last Friday night at a party given in her home. At the appropriate hour Miss Morgan served her guests ice cream and cake.

Those to enjoy the hospitalities of the occasion were: Billy Conner, Katherine Fogel, Lorene Raska, Margaret Tallent, Doris Warren, Geraldine Fogel, Cleo Shannon, Lorene Walston, Tressie McLerran, Pauline Pressley, Arlene Angell, Roland Devers, Aubrey Nevens, Doris Morgan, Jack Walzel, Chas. E. Woodul, Sue Terry, Clyde Hensley, Jr., John Howland and Pressley, Curtis Griffin, Gerald Tallent, Joe Bailey Kirk and Julian Conner.

TUESDAY BRIDGE CLUB

Mrs. Earnest Coffield was hostess to the Tuesday Bridge Club for the week. White Cala lilies, pink snap dragons and sweet peas added a floral greeting to the reception suite, while long sprays of pyracantha blossoms graced the dining table. Mrs. H. F. Smith, Jr., captured high for club members and received a beautiful tray.

Mrs. A. J. Triggs was presented a silver ice tub with tongs for guest high. The hostess served a salad course with drink. Guests for the evening were: Mesdames Jas. Coleman, Bassett Watson, B. F. Bonds, A. J. Triggs and James Watson.

Faculty Names Outstanding Students

Denton, April 6.—Because of unusual ability in their respective fields, these twelve girls have been named the most outstanding students in the senior class at Texas State College for Women (CIA). The selection was made by the faculty, and a special section in the college yearbook will be devoted to them.

Miss Nelle Bone, Fort Worth, president of the Student Government Association, was chosen most outstanding in leadership; Misses

Martha McCurdy, Mission, music; Charlotte and Charlene Lane, Houston, athletic; Emily Coyle, Beaumont, art; Virginia Lamm, George West, scholarship; Frances Mae Johnson, Somerville, dramatics; Adelia McCulley, Dallas, foods; Ruth Folse, Kansas City, Mo., literature; Clarence Keltz, Vernon, business administration; Jennie Shireman, LaPorte, journalism; and Lillian Garland, Annona, clothing.

FRIDAY BRIDGE

Mrs. Albert Collins was hostess to the Friday Bridge Club at her attractive home on 11th street. Gay spring flowers were used in decorations.

At the conclusion of the games Mrs. S. A. Cottle held high score and was rewarded.

The hostess served a lovely plate consisting of frozen salad with ice drinks. Mrs. George William Triggs and Mrs. S. A. Cottle were guests for the afternoon.

Mr. and Mrs. Vernon Roberts and Mr. and Mrs. Claude Triggs spent Friday in Dallas, and while there attended the races.

Mrs. L. L. Blaylock and Mrs. Drayton McLane visited in Waco Friday.

Mrs. Stanley Swift spent Wednesday in Waco with her mother, Mrs. A. J. Dossett.

Mrs. J. M. Bowman left Friday for Alabama after receipt of a message that her sister was gravely ill.

Mrs. Julia Kasmeier, educational secretary for the Board of Examiners for Texas Nursing, was a visitor in the Cameron Hospital Friday.

Mr. and Mrs. E. A. Perrin and a number of teachers from the faculty of Cameron schools attended the funeral of the father of Miss Aline Miller in Austin, Sunday.

Mrs. Dan Gunn, Mrs. John A. Smith and Mrs. Bertha Brewer attended a district Baptist convention in Austin Wednesday and Thursday.

CHURCHES

EASTER SUNDAY AT FIRST METHODIST CHURCH

Sunday School at 9:45 a. m. Service for baptizing babies at 10:30 a. m.

Reception of new members into the church at 11 a. m.

Billy Triggs will sing "I Heard the Voice of Jesus Say."

Following the sermon the offering for Church Benevolences will be taken.

A Cantata, "The Life of Christ in Song" will be given at 7:45 by the Young People and Juniors of the Church.

UNION COMMUNION SERVICE

The Christian, Episcopal, Presbyterian, Church of Christ and Methodist Churches will unite in Lords Supper.

At the Methodist Church on Thursday at 8 p. m. the Christian Episcopal, Presbyterian, Church of Christ and Methodist Churches will come together for the observance of the communion service. The combined choirs will furnish the music. The church will be lighted with candles only. The pastors are asking for the fullest co-operation of all their members. Everyone in Cameron and the surrounding communities is invited.

W. M. U. BAPTIST

W. M. U. Circles held their monthly business meeting Monday at 1:30 at the Baptist church. This was followed by District meeting at which time a general report was made of all activities.

The meeting was held along with the Workers Conference program, an all day meeting at the church here Sunday.

MISSIONARY SOCIETY

Women of the Missionary Society of the Methodist church held their regular meeting Monday afternoon. The lesson study was taken from the year book with Mrs. Walter Sharpe as leader.

Quarterly reports were read and talks by Mesdames J. T. Baldwin, W. O. Triggs, Walter Sharpe and La Bertice Robinson on the works and accomplishments of settlement house, were given.

ST. RITA'S CIRCLE

The St. Rita Circle members met in the home of Mrs. A. E. Matula Wednesday afternoon, with Mrs. Ray O'Neill as joint hostess. Twenty-one members answered to the roll call. After a business session the hostesses served pudding, cookies and coffee.

CHRISTIAN CHURCH

Women of the Missionary Society of the Christian Church were guests of the First Christian Church in Temple Monday. A Missionary program was given from 11 to 12.

Temple women served a noon day meal. After a short recess the program was continued. Mrs. W. G. Harsha sang a solo.

EPISCOPAL CHURCH

The women of the Episcopal Church met Monday afternoon. The time was devoted to the Bible study under the leadership of Rev. J. P. Love. A business session concluded the meeting.

EPISCOPAL CHURCH

Easter Sunday April 12th, Holy Communion and Sermon 11 o'clock. Good Friday three hour union service at Methodist church beginning at 12 noon.

TEXAS BIRTHDAY

Texas Centennial we all want to see, Texas the land of the brave and the free.

The people are so happy and gay, They can hardly wait until they are on their way.

And the Lone Star of Texas will be waiting on high;

We'll all go to see it as we are passing by.

The people will be there from far and near

To see Texas in her one hundredth year.

Texas is proud of her noble men who fought

In the war until the end, General Sam Houston his brave army led

And fought the Mexicans until they fled.

The brave men fought from the Alamo's walls

And faced the foe with their hard cannon balls.

There are Bowie, and Crockett and Travis and all

On those battle grounds these brave men had to fall.

We've traveled and we've traveled and at last we're here

To see Texas in her one hundredth year.

—Hazel Ruth Richards.

Mrs. Oxsheer Smith left Monday for Gardiner, Maine, being called to her former home by the death of her aunt, Mrs. Mary H. Eldridge.

Mr. and Mrs. Jack Taylor and baby of Austin were week end visitors in Cameron. Mr. Taylor is consultant for the Sonotone Company at Austin. This firm sells equipment to improve hearing.

Lee Howell of Waco and Bill Howell of Rockdale, sons of Mr. and Mrs. T. A. Howell of Cameron, spent the week end in this city visiting their parents.

GEORGE CHILDRESS, SR. BURIED WILLS POINT

George Childress, Sr., 70, a resident of Cameron 25 years, and a native of Texas, died at the family residence here on Thursday night, April 2, 1936.

Mr. Childress had been in declining health for several years and had been in a critical condition for about six weeks. While his condition was known to be grave, his death came as a shock to many. He expired at 11:30 p. m. Knowledge of his death did not become general until Friday morning.

The body was taken to Wills Point on Friday morning by the Leland Green Funeral Home and funeral services were held at 4 p. m. in Wills Point by Rev. J. Coy Williams, pastor of the First Methodist Church in

Cameron, of which deceased was a member.

Mr. Childress was born in Galveston in 1866. For a number of years he lived in St. Louis, Mo. The family moved to Wills Point and there he married Miss Mae Torbett. About 25 years ago they moved to Cameron where Mr. Childress for years held a place with the Cheeves Bros. Store.

Deceased was a member of the Masonic Lodge and the Methodist church. For a number of years he taught a class of boys in the Junior Department of the Sunday School.

Surviving are his widow of Cameron and four sons, George Childress, Jr., of Cameron; Dr. Delbert Childress of Giddings; Clark Childress of Big Lake and Fred Childress of Temple; three sisters, Mrs. R. H. McIntosh of Cameron, Mrs. Lucia Clark of Darien and Mrs. W. F. Weaver of Mineola.

DR. RISCHAR HEADS MEDICAL SOCIETY

The Milam County Medical Society met at the Cameron Hospital on Tuesday night for an interesting program rendered by Waco Doctors, and to select officers.

"Presentation of Interesting Cases" and "Intestinal Obstruction—with case reports" was given by Dr. H. R. Dudgeon of Waco; and "Hypertensive Heart Disease" was given by Dr. D. D. Warren also of Waco.

The following officers were elected for the Milam County Medical Society for the ensuing year: Dr. Eduard Rischar re-elected President; Dr. G. B. Taylor, vice-president; Dr. Leland B. Taylor, secretary and treasurer.

The following committees were appointed: Board of Censors—Dr. A. S. Epperson, Dr. T. E. Crump, Dr. J. S. Hubert; Legislative—Dr. John Denson, Dr. H. T. Coulter of Rockdale, and Dr. J. C. Herring of Burlington.

Dr. G. B. Taylor who has served for 20 years as secretary-treasurer of the Milam County Medical Society, was elected as a delegate to the state convention at Houston in May. Dr. W. R. Newton, Sr., was elected alternate.

The following doctors were present at the meeting here on Tuesday night: Eduard Rischar, G. B. Taylor, A. S. Epperson, W. R. Newton, Sr., Leland

Lady Took Cardui

When Weak, Nervous

"I can't say enough for Cardui if I talked all day," enthusiastically writes Mrs. L. H. Caldwell, of Statesville, N. C. "I have used Cardui at intervals for twenty-five years," she adds. "My trouble in the beginning was weakness and nervousness. I read of Cardui in a newspaper and decided right then to try it. It seemed before I had taken half a bottle of Cardui I was stronger and was soon up and around."

Thousands of women testify Cardui benefited them. If it does not benefit YOU, consult a physician.

Denson, J. S. Hubert, C. G. Brindley, C. G. Swift, T. E. Crump, Dr. W. R. Newton, Jr., A. E. Kruse of Cameron; T. S. Barclay, Rockdale; Dr. Kirkpatrick of Thorndale; W. J. Fontaine, Jones Prairie, Dr. Stoetke of Rosebud, H. R. Dudgeon and D. D. Warren of Waco.

The Purpose of Bank Loans

—is to aid business in carrying out useful and profitable operations.

THESE operations provide employment, meet public demands for commodities and services, and promote Community prosperity.

Through familiarity with local conditions, through intimate and confidential contacts with local business men, through accumulated judgment as to their plans, abilities and practices, we are able to direct our loans into safe, useful channels. Thus, we can devote our loanable funds to aid and support the business activities which give this Community a full, well-rounded business life.

By honesty and skill in management that will command the confidence and support of our fellow citizens, we seek to meet in full these obligations of good banking.

News From Sharp

Mrs. Tom Graves is recuperating from illness.

Many of the taxpayers of Sharp were complaining about the taxes charged on their automobiles. When asked what was wrong, and if they weren't willing to pay their taxes, the quick reply was yes, but we think old automobiles, like old people, should be exempt from taxes.

The Sharp Consolidated school district along with the other parts of the county held its annual trustee election Saturday, April 4.

Marvin Charles, secretary of the school board of education resigned his position and Jim Bartlett was elected to fill his place. Charlie Bartlett and Val Nemic were re-elected.

Jack Brock visited in Cameron Monday and Tuesday.

M. V. Hallman and Charlie Brown were business visitors in Waco Saturday, where Mr. Hallman attended

a vocational agriculture teachers' meeting. While in Waco they spent most of their time visiting Johnnie Brown, student in Baylor University.

Mrs. Jesse Applin and children and Mrs. Jane Bowens visited in Cameron Sunday afternoon.

M. V. Hallman and Henry Brown attended the B. T. S. Sunday school convention in Cameron Sunday afternoon.

Mr. and Mrs. Jimmie Gregory of Burnett visited in the community over the week end.

News From Lilac

Mrs. Henry McRee is visiting in Thorndale this week.

Those visiting in the L. D. Cummings home Sunday were: Rob Cummings of San Gabriel and Charlie Sharp of Rosenberg.

Mr. and Mrs. Ed Wilson of Cameron spent the week-end in the Robert Wilson home.

There have been several on the sick list this week due to flu.

Several from this community attended the P. T. S. Sunday School Convention at Cameron Sunday.

CARD OF THANKS

We desire to express to our neighbors and friends and to all who came to us in our hour of great bereavement, our sincere appreciation for your kindness, your words of sympathy. We will treasure always the remembrance of so many who were kind and considerate during our deep sorrow. We thank those who gave flowers to express their sympathy and all who in any way helped us.

Mrs. Joe McLerran
Mrs. J. H. McLerran and children.

News From Salem

Mr. and Mrs. Bob Stevens and children visited in the home of Mr. and Mrs. E. J. Richardson at Minerva Sunday.

Mrs. H. E. Gill of Cameron is visiting in the home of her daughter, Mrs. Guy Bross.

Essie Fae Mabry, who has been ill is back in school.

Mr. and Mrs. B. N. Edmonds of Cameron visited in the home of the latter's parents, Mr. and Mrs. G. V. Mabry Sunday.

Hilry Nabours spent Sunday with Mr. and Mrs. W. L. Green at Oakville.

Frank Richter has returned home after spending a year and a half in the CCC camp.

Vernon and Robert Hux of Cameron visited in the home of Mr. and Mrs. W. L. Tucker Sunday.

Mr. Jim Roger's barn burned one week ago last Sunday.

Mr. and Mrs. Homer Nabours and children visited in the home of Mr. and Mrs. John House Friday afternoon.

Frankie and Elsie Hrozek visited Alice and Billie Strzinek in Cameron Saturday.

Mr. and Mrs. C. W. Hightower and children from Walker's Creek visited in the home of Mr. and Mrs. Hallie B. Hairston Monday evening.

Kenneth Kirk spent the week in Waco with his uncle, Mr. Cass Waldon.

SCOUTS WILL CELEBRATE

The Boy Scouts of America of Troop No. 52 will celebrate their eighth anniversary this month.

Troop No. 52 under the leadership of scoutmaster Joseph A. Lindle, and sponsored by the Knights of Columbus in Cameron, has done much toward the development of better citizenship in this community.

In its course of service, this troop has given scouting training to more than sixty boys and has produced three Eagle Scouts.

John Calvin Haygood, student of Allen Academy, Bryan, spent the week-end in Cameron as a guest of his parents, Mr. and Mrs. John W. Haygood.

Billy Wilson, a student in Allen Academy, spent the week-end in Cameron with his parents, Mr. and Mrs. W. L. Wilson.

PERSONALS

Ben Miller of Temple, father of Mrs. Lester Glass of this city, is reported to be much improved from a recent illness. He was confined in a Temple hospital for several days.

Sunday afternoon Mr. and Mrs. Henry Piling, Mrs. Marie Langer and her family, R. and Mrs. Robert Strutz, Mr. and Mrs. Frank Tomek and family and Mr. Jim Mayer visited Mr. and Mrs. Henry Hlavacek last Sunday.

George LeRoy, a 10 pound baby boy was born to Mr. and Mrs. Louis Abnsider at the Cameron Hospital Sunday, April 5. Mother and babe are doing nicely and the parents are being congratulated by their friends on the arrival of their new baby boy.

Stanton Dossett has returned from a trip to the Rio Grande Valley. Mrs. Dossett and their children, Dee, Stanton and Brown are remaining in the warm climate of the Valley for another few weeks.

Women Who Have Pains Try CARDUI Next Time!

On account of poor nourishment, many women suffer functional pains at certain times, and it is for these that Cardui is offered on the record of the safe relief it has brought and the good it has done in helping to overcome the cause of womanly discomfort. Mrs. Cole Young, of Leesville, La., writes: "I was suffering with irregular . . . I had quite a lot a pain which made me nervous. I took Cardui and found it helped me in every way, making me regular and stopping the pain. This quieted my nerves, making my health much better." . . . If Cardui does not benefit YOU, consult a physician.

EDITORIAL

We have just had the privilege of reading a letter from a German High School student, written to one of the pupils of Yoe High. Never before had we realized what an easy time we have in our school. How many subjects are you taking? Probably you have four and certainly not more than six. Compare these with the 12 subjects studied by the German youth, including religion, physical education, physics, chemistry, German, English, Latin, Spanish, French, history, mathematics and others. The writer of the letter is taking five languages listed above and has learned English so thoroughly that he can correspond regularly with an American boy.

This makes our schooling seem very shallow, but perhaps the difference lies between the students. Surely none of us have learned Spanish so well that we could correspond with a Spaniard. We try to make good grades and care little whether we learn much or not.

The future position of the United States among other nations depends upon the students of today. If we do not seriously apply ourselves to our school work, how will America compare with foreign countries, when we

Get Rid of Poisons

Produced by Constipation

A cleansing laxative—purely vegetable Black-Draught—is the first thought of thousands of men and women who have found that by restoring the downward movement of the bowels many disagreeable symptoms of constipation promptly can be relieved. . . Mr. J. P. Mahaffey, of Clinton, S. C., writes: "I have found that Black-Draught is very effective in the cleansing of the system. When affected by the dull headache, the drowsiness and lassitude caused by constipation, I take Black-Draught."

BLACK DRAUGHT

A Natural, Purely Vegetable Laxative

THE ACCURATE, TWO-ROW RIDING PLANTER

JOHN DEERE NO. 210—FOR COTTON, CORN AND PEANUTS

Here's the riding cotton and corn planter that was designed especially to reduce planting costs for Texas farmers. Its accuracy and its adaptability to all methods of cotton planting have made it a big favorite.

The John Deere Saw-Tooth Type Steel Picker Wheel picks out the cotton seed one at a time, or more if desired, in any quantity per acre. It picks out the lint and trash with the seed—no clogging in the hopper. Corn, sorghum, peanuts, and other crops are planted accurately by the use of John Deere Natural Drop Seed Plates.

Tongue truck relieves horses of neck weight and makes machine run steadily. Shovel openers and covers have reversible points. Runner openers can be furnished in place of shovels if desired. Fertilizer attachment and press wheels can also be furnished.

April 17 and 18—State Band Contest, Waco.

LATIN STUDENTS TAKE CUP IN TOURNAMENT

Virginia Humbles and Stone Garner, Yoe High School's entries in the district Latin Tournament in Waco, April 4, won first place in the first-year Latin Contest, and in the second year contest, Adele Slama's essay, entitled "The Founding of Rome," was awarded second place. Since the first year team averaged the highest score in the tournament, a loving cup was presented to them. This cup will remain in the possession of Yoe High school for a period of one year.

Virginia Humbles was presented with a pin in the form of a Lamp of Learning with the inscription "Summa Cum Laude," (with highest praise). Stone Garner and Adele Slama each received a ribbon inscribed, "Summa Cum Laude."

Representatives from about ten schools took part in the tournament, among them were Waco, Temple, West, Goldwaite and Cleburne.

ley McLean, 220 yard dash.

Yoemen entering the meet, accompanied by Coach L. C. Wood, were: Allen Horstmann, Harold Heath, John Davis, Leland Hurry, Nolan Butler, Shirley McLean, Taylor Moore, Dero Underwood, Woodrow Crawford, Gonzalo Robledo, and J. B. Gilbert.

SPANISH PROGRAM REPEATED FOR ASSEMBLY

The assembly program on Wednesday, April 1, consisted of Spanish music and dances taken from the Spanish pageant presented on Monday night. Those taking part in the program, which was a dazzling display of beautiful Spanish costumes, were Clinton Breeding, Wenonah Slaughter, Ralph Mayfield, Ralph Michalka, Dorothy Gohmert, Mary Frances White, Allyne Humbles, Edward Balhorn, Alice Rylander, Helen Ryan, Joe McLean, Robert Sloan Ryan, John Evans, Von Hickman, Elizabeth Sprott, Ted Matula, Woodrow Lange and Daphne Terry.

PRESIDENT OF LON MORRIS SPEAKS BEFORE ASSEMBLY

Rev. C. E. Peebles, president of Lon Morris College at Jacksonville, who is preaching the evangelistic revival at the Methodist Church here, made a very interesting talk Thursday to the student body of Yoe High. His theme was "Study Yourself."

Rev. J. Coy Williams, pastor of the Methodist church, introduced Mr. Peebles.

The stage was beautifully decorated with bluebonnets and Indian blankets, commemorating Texas' birthday.

MR. PERRIN ATTENDED BELTON MEETING

E. A. Perrin, superintendent, Monday attended in Belton a meeting of superintendents of eight surrounding towns.

A football executive committee of three: E. T. Robbins of Taylor; R. L. Hiles of Georgetown, and E. A. Perrin of Cameron. Mr. Perrin was appointed Chairman of the group.

JUST FOR FUN

By Neill

Billy C. "Troubled with your throat eh? Ever gargled with salt water?"
Luie T. "Yes, I was nearly drowned while swimming last summer."

Johnny W. "So J. T. said that I had a skin one loves to touch?"
Liddie Mae. "Not exactly, dear, he said you had a skin you love to re-touch."

Billy S. "Say, what's the idea of wearing my raincoat?"

Sealy S. "You wouldn't want your new suit to get wet, would you?"

Miss Pitt called for sentences using the word "beans."

Marvin H. "My father grows beans."

Coleman L. "My mother cooks beans."

Dero U. "We are human beans."

Julian B. "How can I make anti-freeze?"

Clara B. "Hide her woolen pajamas."

Ed Balhorn (business man): "Yes, when I first came to New York I had only a dollar in my pocket to make a start with."

Billy T. (interviewer): "And how did you invest that dollar?"

Ed. B. "I used it to pay for a telegram home for more money."

Barclay J. "Do you girls really like conceited boys better than the other kind?"

Girls (from Rosebud): "What other kind?"

Echoes From
Ada Henderson

EDITORIAL

What do you think of when you hear the word Easter? Easter is the time when everything begins over again and turns a new page in the book of life. The leaves change dresses, the flowers peep their heads from the earth to see Mother Nature at her best, the trees begin to bud, and all the world prepares for summer. Nearly all of us have new clothes at Easter and want to show them off. So why not all of us change, not only in clothes but in spirit? Let's forget the past and face the old world with a smile and show each other what we can do.

The Purpose of Bank Loans

—is to aid business in carrying out useful and profitable operations.

THESE operations create employment, meet public demands for commodities and services, and promote Community prosperity.

Through familiarity with local conditions, through intimate and confidential contacts with local business men, through accumulated judgment as to their plans, abilities and practices, we are able to direct our loans into safe, useful channels. Thus, we can devote our loanable funds to aid and support the business activities which give this Community a full, well-rounded business life.

By honesty and skill in management that will command the confidence and support of our fellow citizens, we seek to meet in full these obligations of good banking.

Citizens National Bank

Where Houston Celebrates Winning of Texas Freedom

Houston will be host to thousands April 12-21 when the San Jacinto Centennial Celebrations hold forth for ten gala days. Visitors will witness colorful parades and pageants, and an entertainment highlight will be a public ball on Main Street in front of the site of the old capitol of the Republic of Texas. On San Jacinto Day 100,000 will participate in a pontifical field mass and other ceremonies to be broadcast nationally over both major networks. At the right is the gigantic shaft to be erected on the battlefield in honor of the heroes of Texas' struggle for liberty.

Yoemen

(Continued from page 6)

Lanham and Mr. and Mrs. Perrin of the high school also attended.

GENERAL ASSEMBLY

The general assembly program will be made up of Texas History stories. The program is as follows:

The 3X will give a play "Ellis P. Bean." This play is two incidents in the life of Bean.

The 3Y will give a play "Cabeza de Vaca." This play includes two incidents in the life of this great explorer.

RUTH MAYFIELD'S SHOP

The fourth grade's play is entitled "How Texas Won Her Freedom." Sam Houston is the hero of the story.

The fifth grade is going to present a play called "The Seven Cities of Gold." This is an imaginary story of the meeting of Cabeza de Vaca and Coronado at the governor's palace.

These plays are to be made up by the pupils of these grades.

BOY SCOUTS OF AMERICA

The Boy Scouts of Troop 53 met at the scout cabin in the Wilson Ledbetter Park last Friday night, April 3, at 7:30. There were 16 scouts present and one official. Mr. Haygood had a plan by which he believes the Troop will prosper. There are eight committees. The chairman of these committees were selected by Mr. Maygood. Several games were played and the meeting was closed with the scout oath, led by Roy Dunlap.

RADIO

By Malvina Olson

A is for Armstrong
From the Crazy Hotel
His mineral water
Is to make you well.

B is for Bowes
The amateur chief;
If you don't get the gong
It brings great relief.

C is for Crosby
On the Kraft Music Hall;
He gets lots of listeners
And pleases them all.

D is for Dunn
And Eddie's the name.
On Light Crust flour
He bases his claim.

E and F are my tough spot
If you'll think up some names
I'll give you my cats
And promise you fame.

G is for Gorrigan
And his orchestra gay,
You hear him at night over WFAA.

H is for Hilliard
On the Bakers Broadcast;
With Robert Ripley
And his tale of the past.

I is for Ignorance
And it certainly has me,
For I can't think of all the ABC's.

J is for Jello
With the six famous flavors—
They are all good
I don't know which one to favor.

K is for Krissman
Who on a violin plays
And that's how to fame he fiddled
away.

L is for Lawrence;
You should see him fight
When the football captain
Says "Stay in at Nights."

M is for McGee
The great fibber,
Who claims a V-8
But only has a flivver.

N is for Nelson
With Harriet he'll spoon,
While he sings all the while
"Roll Along Prairie Moon."

O is for Ozarks
The famed mountaineers
Who came to see Texas
The middle of last year.

P is for Penner
Whose first name is Joe
When Goo-Goo gets loose
You should see him go.

Q is for quack
Of Goo-Goo the duck
He belongs to Penner,
Just think of such luck.

R is for Ross
Who loves Mary Lou
But she is to marry another guy—
And he is blue.

S is for Smith
Her first name is Kate
You should hear her sing
"A Quarter to Eight."

W is for worry
I've had on my rhyme
For making it up
I've spent all my time.

The last ones may be easy,
But they are X, Y and Z,
And I can't think of another name
Don't you see.

News From Milano

Mrs. Dan Robinson entertained the Milano Cemetery Association Monday afternoon. A pleasant evening was spent by all. After a short business meeting, refreshments of sandwiches and lemon pie and hot chocolate were served to the 25 present.

Rex. Davis, pastor of the Methodist church, began a pre-Easter Revival here Monday night. There will be two sermons a day.

Rev. Carroll Gillis filled his regular appointment here Sunday morning and Sunday night at the Baptist Church. There was a very interesting missionary program put on at the morning service.

Mr. and Mrs. Craig arrived in Milano Sunday. They will live in the house vacated by Mr. and Mrs. Tenny, who moved to Brenham.

Mr. and Mrs. Lloyd Ferguson and Miss Eva Peavy were Rockdale visitors Saturday.

Mrs. E. C. Smith of Sugarland have returned home after spending the week-end here with her sisters, Mrs. Elam and Mrs. Baggett.

Mrs. R. Breman and Miss Alice Breman are visiting Mrs. George Manley at Minerva Friday.

Mrs. Mattie Pinkerton of Thorn-dale is a guest of her daughter Miss Pearl Pinkerton here this week.

Weldon Bramer, who has been working in Houston, was greeting his many friends here Sunday.

Mrs. Brooks and Mrs. Hardamon left Tuesday for a visit with their children.

Joe N. Luce of San Angelo and wife have been in Cameron since last week visiting with his son, Joe and family. Mr. Luce has been reading the Cameron Herald for more than 40 years and has just extended his time for another two years. Mr. Luce has been living in West Texas for a number of years and is interested along with T. S. Henderson in land interests.

John Deere KL Cultivator

THE STRONGLY-BUILT CULTIVATOR
THAT DOES GOOD WORK IN NAR-
ROW OR WIDE ROWS

The John Deere KL is just the right cultivator for you if you want one cultivator that will do high quality work in a variety of row crops. It can be quickly and easily adjusted to any width of row from 30 to 48 inches.

You will like the easy handling of the KL. You can quickly raise or lower rigs, fix depth, space rigs, regulate shovels or sweeps, and dodge in crooked rows—from the seat, without stopping the team. The John Deere lever spread arch holds the rigs rigidly at the width set with the lever.

You'll like the sturdy construction of the KL—axle parts are heavy and strong; the frame holds its shape—will not sag.

Be ready with a new KL this season.

Churches Unite For Good Friday Service

Churches in Cameron have announced a Good Friday service to be held for three hours beginning at noon Friday April 10. It is the outstanding religious event of the year. Special preparation is being made for the service, with Rev. J. Coy Williams of the First Methodist church having the co-operation of a number of ministers.

The services will be held at the First Methodist Church and the following program will be heard:

Hymn—"O, Jesus I Have Promised" No. 254
Prayer.
Address—"Passion Week" Rev. J. P. Love
Prayer Rev. J. P. Love
Silent Prayer—Organ Mr. Robert Smith, Organist

PART I

Hymn—"Near the Cross"—No. 162.
Address—"Father, forgive them for they know not what they do" Morris Grove.

Silent Prayer—Organ.

PART II

Hymn—"In the Cross of Christ I Glory"—No. 158.
Address—"Today shalt thou be with me in Paradise" Rev. H. N. Bailey

Prayer.
Silent Prayer—Organ.

PART III

Hymn—"More Love To Thee"—No. 187.
Address—"Behold the son; Behold thy Mother" Rev. P. L. Caperton

Silent Prayer—Organ.

PART IV

Hymn—"My Faith Looks Up To Thee"—No. 4.
Address—"My God, why hast thou forsaken me?" Rev. Chas Wood

Prayer.
Silent Prayer—Organ.

PART V

Hymn—"Must Jesus Bear the Cross Alone"—No. 161.
Address—"I Thirst" Rev. Walton Day
Silent Prayer—Organ.

PART VI

Hymn—"Jesus, I My Cross Have Taken"—No. 155.
Address—"It Is Finished" Rev. O. C. Acree
Silent Prayer—Organ.

PART VII

Address—"Father into thy hands I commend my spirit," Rev. J. Coy Williams

Prayer.
Closing Hymn—"Jesus Shall Reign"—No. 221.
Benediction Rev. O. C. Acree

The offering for the poor will be placed on the plates at the door. Worshippers may enter and leave during interval between parts. Everyone in Cameron and the surrounding communities is invited to this service.

VOCATIONAL TEACHERS MEET IN WACO

Teachers of Vocational Agriculture from nine counties of Central Texas met in Waco Saturday, April 4 for a business session with P. G. Haines, State Supervisor, and E. R. Alexan-

der, teacher trainer from A. & M. College, in charge. The group discussed in detail the new Soil Conservation program and methods were suggested for teachers to follow in co-operation with the extension service in carrying out the new program. Teachers from Milam county in attendance at the meeting were N. A. McNeill, San Gabriel; M. V. Hallman, Sharp; E. D. Parnell, Cameron; H. D. Maxwell, Rockdale.

AD HALL 4-H CLUB

The Ad Hall 4-H Club Girls met Thursday, March 26, at the home of Johnnie Ruzicka. Twelve members and one visitor were present.

The girls are studying the art of dress making and every girl must make a dress.

At the close of the meeting, funds were allowed for the reporter and secretary.

The next meeting will be held at the home of Martha McLain on April 17. The meeting will be a continuation of dress making.

MRS. J. BALHORN IS BURIED IN MOULTON

Mrs. Josephine Balhorn, 73, of Moulton, died suddenly Sunday morning at her home. News of her death was flashed immediately to Cameron where her two sons, Ed Balhorn and Bill Balhorn live. Another son, A. C. Balhorn lives in Rockdale and is with the Southern Pacific Lines in Cameron.

Others who survive her are Mrs. Anna Humphrey of Beaumont, Mrs. Emma Gray of Yoakum, and Mrs. Bertha Turberville of Oklahoma City. One brother, Ben Cley of South Texas, five grand children and one great grand child survive.

She had been a resident of Moulton for many years. Funeral services were held Monday from the residence in Moulton.

Man's Heart Skips Beats—Due To Gas

W. L. Adams was bloated so with gas that his heart often missed beats after eating. Adrika rid him of all gas, and he eats anything and feels fine.

Silver Cup In Latin Contest Victory Comes To Cameron For First Time; Won By Virginia Humbles and Stone Garner in Waco Saturday

A silver loving cup, the highest award of the District Latin Tournament, comes to Cameron for the first time.

Pupils of Miss Ethel Skelton were victorious in Waco on Saturday of last week in competition with schools of the district and as a result the cup is won by Cameron.

Miss Virginia Humbles won first in the tournament and Stone Garner won second place. Their average in the tournament was enough to give the cup to Cameron. These successful pupils are members of the 8th grade. Miss Skelton also took a team from the 9th grade represented by Bobby Casey and Iva Earl Heath.

Miss Adele Slama in the Sophomore essay contest from the 9th grade won second place at the meet and was given a ribbon in token of her victory.

Virginia received a beautiful pin for having won first place in the Latin tournament.

If the cup is won four years in succession it will remain permanently in Yoe High School as a tribute to the scholarship of local students.

Miss Skelton, teacher of Latin, was being congratulated for her success in arranging the participation. She has been a member of the faculty

here for several years and her contribution has been large to the success of the school.

Stone Garner, one of the honor pupils of the schools, is the son of Mr. and Mrs. H. E. Garner of Cameron. Mr. Garner, the father is with the local postal service while Mrs. Garner, the mother, is a widely known civic leader among women. Stone was receiving hearty congratulations for his part in bringing the cup to Cameron for the first time.

Virginia Humbles is one of the brightest students in the history of the schools, and the daughter of Mr. and Mrs. Hess Humbles of Cameron. Her mother is in the law offices of E.

A. Wallace and her father has been well known here for years. Miss Virginia was the star winner of the entire meet, not only winning in conjunction with her team mate, Stone Garner, the loving cup, but won over all contestants and made the highest grade of all.

Students, faculty and the citizens at large will be ever grateful for this fine representation given to Cameron schools.

Briggs Morgan, Burleson Cannon and Thomas Black, students of Southwestern University, Georgetown, spent Sunday in Cameron.

Mr. and Mrs. H. G. Warren and daughter, Doris, spent the week-end in Killen.

Mrs. B. P. Matocha is able to be at home after being in the Cameron Hospital for a week.

Nervous, Weak Woman Soon All Right

"I had regular shaking spells from nervousness," writes Mrs. Cora Sanders, of Paragould, Ark. "I was all run-down and cramped at my time until I would have to go to bed. After my first bottle of Cardui, I was better. I kept taking Cardui and soon I was all right. The shaking quit and I did not cramp. I felt worlds better. I gave Cardui to my daughter who was in about the same condition and she was soon all right."

CARDUI

Thousands of women testify Cardui benefited them. If it does not benefit YOU, consult a physician.

Pioneer Recalls Hard Times of the 50's and 60's

By FREDERICK GIPSON

206 E. 22nd St., Austin, Texas.

(Copyright, 1936, by the Home Color Print Co.)

HARD times? People these days don't know hard times!"

So speaks Mr. Henry O. Brockmann, 78-year-old pioneer of Mason, Texas. And from Mr. Brockmann's account of his boyhood life in Texas he should know what he is talking about.

"Why, I never wore a pair of shoes, summer or winter, until I was about 14 or 15 years old," he said. "I can remember just after the war between the States when my father paid \$52 in depreciated Confederate money for a pair of shoes for himself. My brothers and I tended the livestock about the place barefooted, sometimes in snow knee-deep, and our pants were made of buckskin."

Mr. Brockmann was born February 25, 1857, in a tent on the bank of Beaver creek in the German settlement of Hilda, then Mason county. His parents were of the same group of German immigrants who settled Fredericksburg (Southwest Texas) earlier in the 19th century. Mr. Brockmann thinks he was the second white child born in Mason county—Henry Echert, now deceased, being the first child. The chimney to the cabin his father built still stands in what is now a field of the late Christian Loeffler.

Cornbread and Beef Year Round

"Mother had to card and spin wool to make our clothes," Brockmann said, "working long hours by candle-light after she had completed a day's work about the place. Sometimes a Mexican by the name of Benévitas smuggled goods, such as gun-powder and cloth out of Mexico, and traded them to us for cattle. But this was very seldom."

"Our food in those days consisted principally of cornbread and beef the year round. About the only change in diet was wild game, deer and turkey, that we killed now and then. We raised the corn in a nearby field which we had cleared out of the mesquite and prickly pear. And when dry years came and our corn crop failed it was hard to get bread enough to eat. Lots of the cat-

tle died during drouths because we had nothing to feed them, and the rest were so poor they were hardly fit for meat."

Frequent Indian raids on the poorly-guarded little settlement made life even harder for the settlers. Mr. Brockmann declared, Because of these raids, it was difficult to keep sufficient horses to work the crops. Often a family awoke in the morning to find all of their horses stolen and their only means of transportation gone. Many times, when warning came that Indians were in the vicinity, horses were gathered and hidden away for days in the deep canyons of the hills. Some of the settlers made a practice of keeping horses in such poor condition that the Indians didn't consider them worth stealing.

Killed Settlers for Horses

"Many of the settlers were killed by the Indians for their horses," Mr. Brockmann said. "It was mainly horses that the Indians wanted. My brother and I played and hunted in the hills whenever we had time, and no doubt were often seen by the Indians, but we were never molested."

Still there was always the dread of attacking savages. Mr. Brockmann related one exciting adventure with Indians that happened to a man by the name of Fritz Winkle who was living with the Brockmann family on Beaver creek.

"Winkle had ridden out in the brush to look after some stock. It was planting time, and my brother, Theodore, was breaking land with an ox team, while I dropped corn in every fourth furrow.

Winkle had not been gone long when we heard whoops and the sound of horses running on the brushy hill-side beyond the house. It was the Indians after Winkle and his horse. They ran him to the house, where he jumped off his horse and fell into the doorway, an arrow sticking in his back. Father had to place his foot on Winkle's back in order to pull the arrow loose from the flesh."

Diabolical Cruelty

But there was one couple, Mr. Brockmann remembers, who did not survive

"Jumped off his horse and fell into the doorway, an arrow sticking in his back."

an Indian attack. Mr. and Mrs. Kensing left Hilda one day in a buggy to visit some relatives on Squaw creek, about fifteen miles from their home. On the way Indians ambushed the couple, killing Kensing outright. Their diabolical cruelty to his poor wife is too revolting to put in print. She lived through the night, however, and was discovered the next morning lying in a semi-conscious condition by the side of her scalped husband. She died a few hours later.

"My brother was the only person that ever shot me," Mr. Brockmann remark-

ed. "It was when we were boys. Theodore was trying to shoot a deer with a cap-and-ball six-shooter. The tubes in the cylinder were burned out, and when Theodore pulled the trigger a rim of fire ran all around the cylinder, exploding every cap. One of the five stray bullets that did not go through the barrel struck me in the side. I've been crippled in that side a little ever since."

"There was plenty of fish in the Llano river in those days," Mr. Brockmann recalls. "There was plenty of all kinds of game, for that matter. Deer

were abundant; there were flocks of turkeys so large that sometimes over a mile of the liveoak thickets in the canyons would be filled with the birds at roosting time.

Lobo Wolves Thick

"Lobo wolves were thick, too. Sometimes they entered the sheep pens near our house and killed our sheep. Whenever we hung up a dressed venison, they would circle the house and howl all night. We had such poor guns and so little ammunition that we couldn't possibly keep them killed off by shooting them. We thinned them out occasionally by the use of poison. Sometimes panthers killed calves on the range, but they seldom bothered coming close to the house."

Mr. Brockmann's father was a stone-mason, and his work often kept him away from his wife and family for months at a time. Many chimneys and stone houses which he built about the country are still in use, and a sundial,

which kept time for the soldiers at old Fort Concho, was built by the elder Brockmann. Many were the days when Mrs. Brockmann and her family of young boys had to take care of themselves the best they could.

"Mother never complained, though," said Mr. Brockmann. "She fed, clothed and doctored us and gave us about all the education we ever got. I wonder how many women today, who think they're living hard lives, would put up with what little my mother had without complaining?"

Educational Advantages Lacking

At 14 Mr. Brockmann's schooling consisted of but a few months, outside of what his mother had taught him. Then the family moved to Mason and he attended school there and at nearby Kocksville.

"But never having gone to school much," he continued, "I didn't take my studies seriously, and learned very little. I was grown before I realized what I had missed; and then it was difficult to get time from work to pursue studies. Children have great educational advantages these days."

In his varied life as stone-mason—like his father before him—Mr. Brockmann has seen Texas develop from an almost primitive wilderness to what it is now. He has seen the once wide open ranges cut into separate ranches by barbed wire fences, and those ranches cut into smaller ranches and later into farms. As justice of the peace for many years, he held court in his own farm house, about eight miles northeast of Mason, most of the time. This was the only place he had to hold court. As road commissioner, he helped lay out and build some of the first graded roads in his county. He has seen the automobile take the place of the ox wagon and buggy, has seen markets for new products open up and modern conveniences, undreamed of in his youth, come into Texas homes.

"And times are much better now than when I was a boy," he stated emphatically. "I realize that they are not so good as they have been, but they could be a lot worse. Money is hard to get now, but I can remember when you couldn't get any money at all."

A Patch of Home-Grown Vegetables Will Pay Good Dividends.

By AN EXPERIENCED TEXAS GARDENER

(Copyright, 1936, by the Home Color Print Co.)

THE planting of more gardens has been the rule rather than the exception in Texas during the past five years. Maybe the depression has had something to do with it—but it's a fact that raising vegetables around home is now almost universal, especially in the sandy loam sections of the State. However, we have seen good gardens raised in the black land as well as the sandy land sections.

Of course, the success or failure of a garden is chiefly dependent on rainfall and proper cultivation. Usually enough rain falls over the greater portion of Texas in one season to bring vegetables to maturity—at least, to provide about all the vegetables needed by an ordinary family.

Some folks never try to grow vegetables because they think it takes a lot of experience to make vegetable-growing a success around home. While experience is helpful, yet it is not absolutely necessary. Most any neighbor

or seed dealer can tell you how to plant, cultivate and raise such vegetables as snap beans, peas, potatoes, lettuce, onions, radishes, okra, tomatoes, carrots, sweet corn, etc.

A Garden Space 30x40 Feet

Other folks will say they can buy vegetables cheaper than they can raise them. This is hardly true where you have land available at no extra cost for rental. A space 30x40 feet in a backyard, if deeply spaded, will generally grow all the vegetables a family can eat in one season. Two or three dollars worth of seed, planted in a 30x40 plot of ground, should grow many varieties of vegetables and save money from a family's budget that is usually spent in spring for these products.

Another and greater advantage of home-grown vegetables are their superior flavor to shipped-in vegetables. What can be finer than a mess of home-grown snap beans cooked with new potatoes and seasoned with smoked bacon? Or a bunch of young radishes or young onions fresh from the garden plot?

"When is the time to plant a garden?" is often asked. This depends, to a great extent, in what part of the State you may live. It is the rule to plant gardens in the Southern part of Texas a month earlier than in the Northern part. An old gardener in North Texas, who never failed to raise vegetables year in and year out, would plant no seed until after Easter. He claimed that frost rarely followed Easter and that germination of seed was always retarded until the sun's rays fully warmed the earth.

Fun in Gardening

Perhaps the most appealing point to be made for the vegetable patch is the fun there is in it—the satisfaction of producing something with one's own hands. Then it is fascinating to watch the tiny shoots come out of the ground and develop into full grown table delicacies. Nature can perform miracles in the garden as well as in the woods or on the prairies. There is some work, of course, in connection with planting and cultivating a garden, but for that

matter there is work in whatever task we undertake that is worthwhile.

Little spaces skillfully managed yield as well as large spaces. Ten-foot rows of lettuce, radishes, carrots, onions, parsley and peppers are surprisingly productive if varieties are well chosen and culture is good. A half-dozen tomato plants, trained in single stems to stakes, will yield a bushel of tomatoes over a period of many weeks.

Pole snap beans, trained on fence or wire or strings or sticks, will often produce over a longer period than will bush beans. Many early plantings of quick-growing crops may be followed by later sowings, so that even a little garden ministers to the family table in May, June, July and August, or until dry weather wilts the plants.

Warning to Beginners

Any new hand at gardening will do well to think twice before tackling more than a 30 by 40 plot the first year, even though more space may be available. It is best not to try too many different kinds of vegetables at first. Better a little patch well tilled than large space

and much tribulation over weeds and bugs.

Remember shady places are not good for gardening. Sandy loam soils are best, but a wide range is usable. Clayey soils may be lightened with ashes (not clinkers), or with sand, but if fertilized it should be well rotted stable manure or humus. Leaves may be worked into the soil, but seek advice in use of commercial fertilizers.

There are countless garden bulletins to be had free from the Department of Agriculture at Washington and from the A. & M. Experiment Station at College Station, Texas. These contain suggested plans, advice on planting dates, suggestions on management, insect and disease control and notes on specific crops. Then there are books and planting tables in seed catalogues.

Most vegetables are grown from seed sown directly in the garden. Instructions on the packet or in the catalogue will serve to guide the beginner. In summer, when earth is dry, the planting furrows are made a bit deeper to get the seed to moist soil, but too deep covering is avoided.

Europe's Armed Battalions Are Now Greater Than in 1914

By HANSON W. BALDWIN

(The New York Times)

ONCE again Germany's legions have established "Die Wacht am Rhein," and in the war-weary provinces of Alsace-Lorraine French poilus, manning the steel and concrete casements of powerful forts, guard the road to Paris.

The steady tramp of marching armies echoes across Europe as Hitler's reoccupation of the Rhineland concludes, with a crisis and a question mark, another chapter in the post-war tragedy of the Old World. Hitler's violation of the Locarno pact, his severance of the last irking link of the Versailles chains, have emphasized the differences between Germany and France and have again set in motion the perpetual shuffling process of international politics by which alignments of power are accomplished.

But the monotone of marching feet beats clear above the voice of diplomacy; the reoccupation of the Rhineland once again underscores the steadily growing power of the armed forces of the Old World.

Old and New Strengths

Just prior to the mobilization of the World War, in 1914, there were about 4,428,000 men in the regular armed forces of the principal nations of

Europe (excluding Spain and Portugal, the traditionally neutral Scandinavian nations, and Holland and Switzerland), with some 15,279,500 others in the then somewhat loosely knit organization of the trained reserves. Today in the eighteen corresponding countries there are 5,064,201 regulars under arms, with a tremendous reserve, closely knit and carefully trained in most cases, totaling 36,383,372 men.

But there is more than the tramp of marching men. In 1914 the fields and valleys of Europe bristled with guns and fortifications; today engines of destruction are in the air as well as on the land and the wings of death roar above the Continent, while armies—new and more powerful armies, with tanks and mechanized cavalry—rumble across it. The eighteen principal powers—those most likely to be drawn into any war in Europe—possess among them about 12,000 military planes, many of them obsolete, it is true, but all of them

capable of flying.

These are the armies of the land and air that are capable of doing battle in Europe's next and most dreaded war.

German troops marching into Rhineland.

How they will divide is not yet clear in the case of all nations.

The Opposing Camps

Apparently definitely allied with

France are the nations of the so-called Little Entente—Czechoslovakia, Yugoslavia and Rumania. Russia, too, is bound to France not only by the Franco-Soviet treaty but by the stronger ties of a mutual fear of Hitler's Germany.

An ally in being—though one with a temporizing diplomacy and one extremely loathe to take militant action, an ally that looks askance at France's alignment with Russia—is Great Britain. She is sitting on a volcano and knows it, but will probably control the balance of power in Europe.

Weak and dismembered Austria and Hungary can be counted as potential supporters of Germany. Bulgaria, Turkey, Greece, Latvia and Lithuania are, at the time this is written, on the fence. Greece may go as England goes and Turkey may support either side—with France favored. The great question marks of Europe are Italy and Poland.

The strength of France and her allies

today, measured against that of Germany, Austria and Hungary, is overwhelming. Russia has the largest army in the world—with 1,185,000 in her regular army and air force and 14,590,000 well-trained reserves as a human war reservoir. Her air power is tremendous; her flying fleet of 3,000 military planes (though many of them are slow) is the largest in the world.

Forces of France

France, ringed in along the Rhine with forts of steel and concrete half-buried in the earth, is an able second to the Soviet Union. She has 634,857 regulars under arms—at least 100,000 of them already along the Rhine—and 5,500,000 reserves, capably trained, to back them up. Her air force, once described as the world's largest, is somewhat obsolete and today she has started the job of replacement, so that her effective squadrons probably number no more than 1,600 to 1,800 planes.

Completing the ring of steel about Germany are the lesser powers—Czechoslovakia with 600 planes (many obsolete), 176,000 regulars 1,711,000 reserves; Yugoslavia, with 141,836 regulars, 1,554,793 reserves, 600 planes (largely obsolete), and Rumania, with about 700 planes (partially obsolete),

(Continued at bottom of next page, column 1)

The Last Great Adventure

ANY attempts have been made to reach the summit of Mount Everest, highest mountain in the world, and one of the Himalaya group in India. It rears its head 29,002 feet above sea level. An English expedition is to make another effort to scale this mountain. So far a number of persons have lost their lives in a vain attempt to plant a flag on its highest peak. The chilling cold has been the main cause of previous failures. To conquer Mount Everest is said to be the "Last Great Adventure."

Is It the Last?

But is it the last? There is no limit to what man may do or try to do. Things that look impossible now may be commonplace a century hence. Fantastical as it may seem, efforts are being made to construct a rocket that will soar to the moon. A great telescope will soon be placed on a mountain in California to search out more secrets of the stars. It is the largest telescope ever manufactured and is expected to reveal with clearness twice as much of the unknown universe as has been revealed heretofore. Would it not be a great adventure to find out if there is life on Mars, or Venus, or Jupiter? How great would be the adventure to establish communication with the inhabitants of other planets. Scientists believe that human beings inhabit other planets than our own. It staggers the human mind to contemplate what might be found out if we could but talk (by electric signals) with dwellers on far-away heavenly bodies!

The Impossible Becomes Possible

We may say such things are impossible, yet many impossible things have become possible. Only three decades ago navigation of the air was considered impossible, but the Wright brothers, at Kitty Hawk, N. C., in a great adventure, made it possible. And Marconi thrilled the world when he said he could transmit sound without the use of wires. Now a vessel on any sea can send out a wireless S. O. S. call that will bring other vessels speeding to its aid. Because Marconi did this, millions of people can sit in their homes, turn a dial, and music, or drama, or spot news, from all parts of the world will come rushing through the ether into their ears. Dr. Graham Bell and Thomas Edison adventured when they constructed a receiving contraption, put it in a box and strung wires, so we could talk with people on the other side of the earth. Maybe we will yet talk with people millions of light years from our earth when some other great adventurer points the way.

Leap Year

Leap year in some U. S. towns is making bachelors sit up and take notice. In Aurora, Illinois, the city was turned over to the women for one week and they at once passed an edict that all bachelors had only three courses open to them—to propose to some member of the fair sex, pay a fine, or leave town. Some bachelors left town, sixteen made proposals and thirteen were accepted. Only three braved going into a court where the judge, the police and the witnesses were all women. They were promptly fined \$10.00 each, put on probation ten days and, at the end of that time, if the criminal could prove he had made a bonafide proposal his fine was remitted. Life in Aurora for bachelors is no iridescent dream. Serves 'em right! Why should there be bachelors—particularly in Texas—where there are more sweet, pretty women than anywhere else in the world?

For 50 Years John Colter was Dubbed a Liar

A pamphlet, recently issued by the Yellowstone Park officials, says it was not until 1870 that such things as geysers were admitted as a natural phenomena. A man named John Colter, member of the Lewis and Clark Expedition, left the explorers when they arrived at the Pacific ocean and made his way back to his home in St. Louis. He told a marvelous story of hissing, rumbling, boiling springs that he had seen during his exploration. He was promptly dubbed a liar by the general public. James Bridger, another adventurer, returned from a trip through the wilds of what is now a part of Wyoming and told the same story as Colter about boiling springs. The public wouldn't believe either of them, and for 50 years they were set down as monumental liars. It was in 1870, through the official reports of a special U. S. expedition, that hissing and boiling geysers were proven to be no myths. The United States government wisely took charge of the entire Yellowstone territory and by law set it aside for recreational purposes. I have made the trip through Yellowstone National Park and the geysers (there are hundreds of them) were a never-tiring source of interest. I have seen "Old Faithful," one of the largest geysers, come through on schedule time, spouting steam and hot water every 64 minutes. Only a few of them have stated times to erupt, but all of them practically expel hot water and steam during a 24-hour period—some of them shooting hot water jets to a height of 200 feet.

And Thus He Died

More than half a century ago a woman

sat by the bedside of a man whose life was fast ebbing away. He was tired and weary in mind and in body, was practically an exile, although he had given the best years of his life on the battlefield and as chief executive to the State that now looked on him as a traitor. As his breath came shorter and the chill of death drew nearer, the woman opened the Bible and read: "In my Father's House are many mansions; if it were not true I would have told you." Through tear-dimmed eyes she saw that the dying man was listening. "Read on," he said, in a whisper. With faltering tones his wife finished the verse: "I go to prepare a place for you, that where I am ye may be also." While thus listening to a reading of the Holy Scriptures, Sam Houston passed from this earth, a smile on his lips.

Houston was Governor of Texas when the war between the States came on; he could not see his way to believe in secession and advocated that Texas remain in the Union. Because of this belief, he was compelled to abdicate as Governor and retire to his home in Huntsville a discredited man in the eyes of fellow men. But time has changed the feeling against Houston to one of veneration. Like Washington, Houston was not only great in war but a master statesman who guided well the new republic in its early peace struggles. Texas owes as much to Houston, for this peace guidance as for his victory at San Jacinto. This Centennial year Texas honors the State when it honors Sam Houston.

2c Per Mile—South, East and West

The Interstate Commerce Commission, in ruling a general reduction of passenger fares, will do much to help railroads regain some of their lost business. It has placed the coach fare throughout the United States at 2 cents per mile and drastically reduced pullman fares. Railroads in the South and West have been operating for more than a year with 2c passenger fares, and passenger traffic thereby has greatly increased. By air-conditioning their coaches, railroads have offered another inducement to the traveling public. I made the trip through Arkansas last August in one of these air-conditioned coaches; although it was sizzling hot outside, we traveled comfortably in a temperature of 66 all day.

A Great Country

The President's food bill, it is reported, runs around \$2500 per month. That means on a normal day that the White House kitchen staff must provide meals for about 60 persons, since the President, his family and house staff number 58. This staff includes the secretaries, down to the kitchen help. There are 28 household servants employed

regularly and on special occasions this number is increased. At official dinners there are sometimes 100 guests. The White House kitchen has been recently remodeled at a cost of \$100,000—the range alone costing \$5,000—the costliest stove ever built. If any reader should ask me who pays the President's \$2500 a month food bill my answer would be, "I don't know." Maybe the President pays it and maybe the taxpayers pay it. Certainly the President should not be expected to pay for official dinners, but if he foots all the food bills it will take just about half his salary. However, there are lots of folks whose food bills consume half their salaries. Our White House is somewhat different to what it was in President Jackson's time. In a history I have just finished reading, of "Old Hickory as President," it says: "President Jackson carried with him to Washington an old negro cook and her husband and these were the only servants he had." But we are doing things on a bigger scale. For example, there are 152 telephones in the White House and 12 high-priced automobiles in the garage. There is a \$40,000 swimming pool somewhere in the big building. In contrast to all this, it's likely that Andy Jackson bathed in a tin basin or a wash tub. But this is a great country. Why should we be niggardly in fitting out the President's household?

"Whoever Will Lose His Life Shall Save It"

We have heard it said of old that "whoever will save his life shall lose it, but whoever will lose his life shall save it." This Centennial year has brought out the truthfulness of this quotation. The names of Travis, Bowie, Crockett and Bonham are enshrined in the hearts of all Texans. They lost their lives in the Alamo, but they live in the memory of millions for whom they died. Did you ever hear of Moses Rose? I confess I never did until the Centennial brought him to light. Rose decided that life was preferable to death in the Alamo, so one night, just before the Alamo fell, he scaled its walls and escaped in the darkness—to oblivion. Travis and the others chose to remain and fight it out—a brave decision—that brought them eternal fame. Rose saved nothing but his life and nothing is known of that life. It really matters little when death comes, for we all must die, but it matters much how we live and how he die. A few additional years on this earth might have been of some value to the heroes of the Alamo, but the manner in which they chose to die is an inspiration to all the world. It is likely they could have followed Rose into oblivion, but they stayed with Travis, Bowie and Crockett and their names are among the immutable stars of destiny.

Southern Bridge Builders

The bridge over the Golden Gate, San Francisco, is only exceeded in size by one other bridge in the world, and that bridge is the one nearing completion from San Francisco to Oakland. The latter is more than two miles long, or twice the length of its nearest competitor, the Golden Gate bridge that spans the inlet from the Pacific and makes San Francisco the easiest city on earth to fortify. But what I started to tell you is that men from the South are building both of these great bridges, just as they built the George Washington bridge for the city of New York, the Seattle bridge for the State of Washington and the St. Louis bridge for the State of Missouri. A writer in Colliers says it has become a legend among bridge builders that as soon as a big bridge job goes into that hazardous, dare-devil phase, where men cling like spiders to threads of steel against the sky, hardy men from the South just naturally gravitate to that job like seagulls to a ship at sea. Let some one launch a bridge across the Hudson, the St. Lawrence, the Mississippi or the Columbia, and Southerners just pop out of the blue sky. They can even smell a bridge in South America or far-off India or China. They are a part of the bridge builders of the entire world. On the two San Francisco bridges a census of the builders shows 86 per cent came from Dixieland.

Humanity Gets a Break

Dr. Thomas R. Brown, of Johns Hopkins Hospital, Baltimore, has given humanity a break. He says dieting is mostly bunk. The doctor has had a medical career of 45 years, and thinks the craze for dieting tops all the queer things he has ever observed. If your stomach calls for a juicy steak, the doctor says eat the steak and not lettuce-leaf sandwiches; if you like sweetened pie don't let any of these faddists tell you to eat raw carrots. When your mouth waters for hot biscuits, light and crispy, don't let anybody convince you that thin wafers would be better. He concludes the subject in the following words: "The average healthy American can best stay that way by eating average American food."

I know a man who is supposed to have been on a diet for two years. At least, his wife and doctor thinks so. His meals at home would hardly keep a canary alive. From a run down condition of two years ago he has steadily gained in weight; his health is as good as any man in our town, and his wife points with great pride to what dieting has done for him. Nevertheless, she doesn't know he has been eating two meals a day—anything he wants—at a little restaurant on a side street just around the corner from where I work.

Jonas Foster's Vivid Experience as a Beacon Lodge Delegate

By JOE SAPPINGTON

822 Sedwick Ave., Waco, Texas.

(Copyright, 1935, by the Home Color Print Co.)

NEVER see a crowd of delegates attending a lodge convention that I don't think of some tales the boys told on Jonas Foster, after his return from a grand lodge meeting in Kansas City, where he had gone as a delegate to represent Beacon Lodge No. 333 of Angelina county. Had he accepted the honor in a spirit of modesty instead of getting puffed up about it he probably wouldn't have been the butt of so many jokes. Six hours before leaving town for the convention, Jonas exhibited himself on Main street dressed in brand new toggery from head to foot and smoking a 10-cent cigar. At other times Jonas smoked nickel cigars. Any

"Objected to Jonas' feet being in such close proximity to his sensitive nose."

one could tell by the way he threw out his chest and gave the lodge salute to those he met that he was well aware of his self-importance.

A Fellow Passenger's Protest

According to rumor, Jonas' trouble started soon after boarding the train. Depositing his 50c telescope in a safe place where he could see it out of the tail of his eye, he proceeded to make himself comfortable by removing his shoes and hoisting his feet on the top of a back seat in front of him. This undue familiarity brought a strong protest from a fellow passenger, who objected to Jonas' feet being in such close proximity to his sensitive nose. The conductor heard the two men arguing and ordered Jonas to take his feet down and keep them on

the floor where they belonged.

"My feet wasn't hurtin' anybody," said Jonas, in a loud voice that caused passengers to crane necks and look curiously at him.

"Wonder if that blamed conductor knows that I'm the duly elected delegate to the grand lodge from one of the strongest locals in Angelina county? I've got a dern good notion to report his insults at the next reglar meetin' of our lodge unless he apologizes to me before I get off this train," soliloquized Jonas, as he grabbed his telescope and shoes and left for the smoker.

Bill Higgins Gets a Cussin'

Jonas gave Bill Higgins a good "cussin'" for starting the report that he got off the train at a suburban station, just out of Kansas City, thinking the train had arrived at the main union station, thereby necessitating a two-mile hike to catch the nearest downtown street car.

Another tale told on him was his experience in a department store where he had gone an hour before the train was due to leave the station in order to buy his wife a pair of stockings as a

souvenir of his trip. He was met in the store by a floorwalker who directed him to the hosiery department on the third floor where, in turn, he was met by a clerk who wanted to know the color, size and price hosiery he desired.

"Most any color and size, so they don't cost more than four bits," Jonas replied.

"You will find that class of hosiery in the basement," said the salesman, pointing downward. Arriving in the basement, Jonas was not long in making a selection. He gave the clerk a five dollar bill, thinking he would get the hose and change back at once. But the clerk put the hose and bill in a small basket and pulled a string that sent it gliding into space out of sight. After waiting a long time, Jonas became suspicious and began loudly to ask clerks and customers what had become of the basket that so mysteriously disappeared with his money. Believing it a trick to rob him, he was on the point of calling a policeman when the basket came sailing back with the hose and the proper change.

Caught Train by Eyelash

Jonas lost so much time finding his way out of the store that he came in an eyelash of missing the train that was pulling out for Texas when he dashed breathlessly up to the station.

Another story circulated about Jonas was to the effect that he had been in Kansas City but an hour when he chased a fire truck fifteen blocks to a fire, got lost and spent the rest of the night and most of the morning looking for the hotel where he had left his telescope and credentials. He had forgotten, according to this story, the name and street number of his hotel.

Jonas branded this last story as a bare-faced lie and said he could lick the man who invented it, but no one admitted responsibility for the story.

It was a long time before Jonas Foster could live down these jokes about his trip to Kansas City as a delegate from Beacon Lodge No. 333. Members of the lodge quit kidding him on the subject because it made him fighting mad and no one wanted to fight Jonas. He weighed 180 pounds, was 6 feet tall and had muscles hard almost as iron.

Europe's Armed Battalions Are Now Greater Than in 1914

(Continued from Page 2)

an army of 198,464, and reserves of 1,676,000.

Merely to add these figures shows that today (if France's allies stand by her, and Germany can persuade Austria and Hungary but no others to join her parade) the cards of war are overwhelmingly stacked against Hitler's legions. Even without the help of England, France and her ring of steel can put 2,336,657 men in the field almost immediately, and have available trained reserves of more than 25,000,000 to draw upon, with a grand total of 6,700 planes. With Great Britain's small but highly trained army and her rapidly growing air force—now num-

bering about 1,200 planes—to back her, the preponderance of strength in favor of France is even more marked.

For Germany's strength is perhaps in herself alone; the aid of Austria and Hungary might be more of a military liability than an asset in case of war. Neither of the smaller powers is legally, under the post-war treaties, entitled to an air force, but both have negligible nuclei—perhaps 150 to 200 planes in all—which might be developed. Their armies, too, are weak—32,700 regulars for Austria, 35,044 for Hungary, with trained reserves between them of about 811,000.

Germany's Forces

As for Germany's own strength, her armies and her air force—both growing by leaps and bounds, both highly modern, thoroughly equipped and better trained than any in Europe—have been

sufficient to cast the shadow of fear across Europe. Her regular army today, including active army reserves, Nazi formations and labor service corps, number 426,000 men, and she has a trained reserve of 1,850,000 and an air fleet of about 700 first-line planes, with several hundred other commercial and sport ships which could be easily converted into fighters.

But even with due allowances for German military genius, the totals are discouraging to those who would like to see Germany the supreme power on the Continent. If there were war tomorrow, Germany and her possible allies could pit not much more than half a million regulars and 850 planes against the 2,337,000 troops of France and her allies and the 6,700 planes of their flying fleets. And at no time during a brief war would the picture be more encouraging, for against the vast trained

strength of 25,000,000 reserves of Russia, France and the Little Entente, Germany could muster but 2,661,000 men.

Italy today, in the midst of her Ethiopian campaign, has a regular army practically as large as Russia's (larger, if the air force personnel is included) and trained reserves of 5,214,368—almost as many as France. Her air force of 1,100 long-range planes probably is more modern than any in Europe.

Poland's Importance

Poland is far less impressive, with probably 500 planes, most of them obsolete or second-line machines; an active army of 268,015 and a trained reserve of 1,421,579. But her geographical situation as a buffer State between Germany and Russia and her control of the Polish Corridor, which cuts off East Prussia from Germany, emphasize her

military—and political—importance.

These two nations alone could do much to remove the tremendous military disparity apparently existing against Germany today, and both of them might conceivably line up in the German camp. Thus—even leaving out of consideration the situation in the Far East which makes Japan a potential if not an actual ally of Germany—the odds against Germany are shortened.

The geographical nature of Europe—the smallest continent, with nearly every country easily accessible to the seven-league boots of the flying fleets, with but few formidable natural barriers except the Alps to bar the march of armies, with national border lines cutting across racial affiliations and neighbors pitted against neighbors—makes the problem of the armed camp of Europe even more complicated and confused.

TEXAS PRODUCED 378,681,465 BARRELS OF OIL IN 1935

Final compilation of the records shows that Texas produced 378,681,465 barrels of petroleum in 1935. This figure, of course, is in addition to any "hot" or excess production which may have been produced during the year.

WANTS ONE OF SIX NEW FEDERAL PRISONS

Uvalde county, home of Vice-President John N. Garner, has asked that one of the six new Federal prisons, proposed by Attorney General Homer S. Cummings, be located there. The county, through the Uvalde Chamber of Commerce, has offered to furnish the land for the prison.

RIO GRANDE FLOOD CONTROL

The constant flood menace of the lower Rio Grande river would be largely obviated if an appropriation of \$1,600,000 can be secured from the Federal government, according to Representative Milton West, of Brownsville, representative of the International Boundary Commission.

TEXAS FIRST IN WOOL

Not only is Texas the largest wool producing State in the Union, but it yields twice that of its nearest competitor, Montana. The crop for 1935 was 59,220,000 pounds, according to the Bureau of Crop and Livestock Estimates of the United States Department of Agriculture. The crop last year declined from the two preceding years.

CUTTING OFF WART RESULTS IN DEATH

Performing a minor operation by cutting a wart from her thumb, cost the life of Miss Nelda Alice Leinbach, of Dallas. She cut off the wart with a knife, infection followed, and she died a few days later.

TEXAS' FIRST NEWSPAPER

One of the feature attractions of the Texas Centennial will be a copy of Texas' first newspaper. It was published at Nacogdoches in 1813, 123 years ago, in the opinion of Ike Moore, University of Texas history instructor. Definite records are lacking, but Moore's research convinces him that Jose Alvarez de Toledo, member of a filibustering party, brought a printing press to Texas and issued a newspaper in 1813.

SOUTHWEST TEXAS GETS LARGE FISH HATCHERY

Excavation work has been started for the foundation of seven buildings to be erected at the Federal hatchery, three miles east of Uvalde, and work of construction will be pushed with all possible haste. The hatchery will consist of two residences for caretakers, garage, two pump houses, a holding shed where the fish are "hardened" before being shipped, and a combination office, garage and shop.

LARGE PLANTING OF TUNG OIL TREES

Between 4,000 and 5,000 tung trees will be planted this spring along the irrigation canals in Matagorda county by the Gulf Coast Water Company. This experimental planting will be of wide interest to the Gulf coastal section of Texas, as the United States is a heavy purchaser of tung oil from China. Tung trees are considered one of the important industrial farm crops which Texas farmers may engage in as an additional cash crop.

LOWLY SPINACH HAS ITS DAY

A spinach festival was held last month at Crystal City, in the famous Winter Garden section of Texas. The festival was part of the local Centennial offering. The Winter Garden is famous for just what its name implies—winter gardens for the whole nation. Spinach is one of leading winter vegetables of that section. Zavala county alone is said to produce more spinach each year than any other county in the State.

QUAIL FARM IS HOBBY OF RAILWAY CLERK

Ed S. Harrington, Palestine railway clerk, finds delight and recreation in the propagation of Bob Whites. His "quail farm" is four miles from Palestine. For the past ten years he has liberated at least four pair of quail each mating season, a custom more hunters should do well to follow. He captures winged birds during the hunting season and purchases breeding stock from the State Game, Fish and Oyster Commission.

"EYES OF TEXAS" BELONGS TO TEXAS UNIVERSITY

An argument that spread over the entire nation, waxing hot in some States, was the legal rights to University of Texas' song, "The Eyes of Texas Are Upon You." It ended when the copyright was voided and the title of the song restored to students of the University. The copyright owners notified the president of the University that they had withdrawn all copyright claims. The Attorney General of Texas had threatened to bring court action to stop the commercializing of this popular college song.

SOIL EROSION PROJECT STUDIED

One of the major soil erosion projects of the United States is in Bell, and other adjoining counties of Texas, on the Elm creek watershed. The study of this project is to determine the policy of the SCS projects now under way and planned in this section.

SPEECH TOURNAMENT

One hundred and seventy-two contestants from 39 West Texas high schools competed in the second annual speech tournament at Abilene. Scholarships in Abilene Christian College and medals were awarded the winners. Declamations and readings were given by both boys and girls, in two separate divisions, all extemporaneously.

NEGRO WOMAN, REPUTED 114 YEARS OLD, ASKS PENSION

Aunt Phoebe Henderson, negress, reputed to be 114 years old, residing in Harrison county, near Marshall, has applied for an old-age pension. She claims to have been born 14 years before Texas gained independence, at Norcross, Georgia, January 14, 1822. She is blind, but otherwise in good health.

FIRST CATTLE BRAND FILED 1856

Digging up Texas history has revealed the fact that the first cattle brand filed in Kerr county was April 28, 1856, a few days after the county was organized. It was filed by a woman, Mrs. Prudence Hendrix, and the brand was "AN."

"LOST LAWS" ARE HELD VALID

The 150 Texas penal laws, omitted by a binder's error from the 1925 codification, were held valid by the Court of Criminal Appeals. The omission of these laws caused quite a stir and several criminals convicted under them carried their cases to higher courts on the basis of their omission. The court's decision established the fact that the laws are still in full force.

CENTENNIAL TRAIN FOR NATIONAL TOUR

The Texas Press Association plans an all-Texas special train to advertise the Texas Centennial. This train will make 70 of the principal cities in the Southern, Midwestern and Northeastern States. It will have the official endorsement of the Centennial authorities.

WORLD'S LARGEST VINEGAR FACTORY IN TEXAS

Texas is first in at least one manufacturing enterprise, the Gregory Robinson-Speas, Inc., vinegar factory, at Paris, Texas. This plant is said to be the largest of its kind in the world. The annual output is from 1,250 to 1,500 carloads annually.

MORE POWER LINES UNDER REA ACT

Offices have been opened in Brady for the East Texas Utilities Corporation, a non-profit organization, under the Rural Electrification Act. This organization will receive its charter out of Washington to build power plants and transmission lines in several counties adjacent to McCullough to furnish power to farms in that territory.

UNWELCOME "GUESTS" ARRIVE FOR CENTENNIAL

A fair sample of undesirable "guests" who are pouring into Texas for rich pickings during the Centennial was revealed in a 24-hour drag-net campaign in the under-world resorts of Dallas. Within that period 114 ex-convicts were caught in the meshes of the law. The range of criminals included all classes, from sneak-thieves to gangsters.

SALE OF LARGEST PRIVATE HUNTING PRESERVE

The largest private hunting game preserve in Texas, the 17,000-acre Schreiner ranch on Paint creek, Kerr county, has been sold to Marrs McLean, a Beaumont oil man. The ranch has fish ponds, hunting lodges, wild deer and wild turkeys. About 4,000 sheep and 200 cattle were on the ranch at time of sale.

PAYROLLS SHOW HEALTHY INCREASE

According to the University of Texas Bureau of Business Research, employment and payrolls made a fair gain in Texas over the same time of last year. Reports from 1,368 Texas establishments show a total of 64,152 employees, an increase of 3.2 per cent. Payrolls aggregated \$1,471,000, an increase of 8.5 per cent.

MILLIONS IN DAIRY PRODUCTS USED IN RELIEF

According to figures released from the AAA that department used more than \$25,000,000 in dairy products for relief work, thereby taking off the market a heavy price-depressing burden. Texas relief bureaus received 3,995,379 pounds of butter, 800,058 pounds of cheese, 2,331,600 pounds of evaporated milk, and 1,240,950 pounds of dry skim milk.

AUTO GETS LICENSE FOR 45 CENTS

Kimball county issued a license plate for a 1925 model T Ford for the unexpired balance of the year for the record sum of 45 cents.

Great Sons of Texas

SAM HOUSTON

Sam Houston was born on a farm near Lexington, Virginia, March 2, 1783. When 13 years old, his father died and his mother with nine children moved to the mountains of Tennessee. His father was a Revolutionary soldier under George Washington. His mother was a lady of much beauty and culture.

Young Sam Houston became acquainted with the Cherokee Indians, who lived near his home, and much of his time was spent with them in hunting and fishing. Most of his early life, until he was 18 years old, was spent in this manner, living alternately with the Indians, with whom he became a great favorite. For about one year he taught a country school, and later attended an academy for a term.

In 1813, during America's second war with England, Houston enlisted as a private soldier, and was made sergeant of a company. He soon became the best drill-officer in the regiment. During the war with the Creek Indians, Houston served under General Andrew Jackson. He participated in the battle which took place at To-ho-ne-ka, (or Horseshoe Bend of the Tallapoosa river), Alabama. When the breastworks of the enemy were gallantly stormed by the 31st regiment, Houston was second to scale the works. Here he received a painful wound from an arrow which remained sticking in his thigh. After trying in vain to extract the arrow, he called upon a comrade to remove it. The comrade, a lieutenant, tried and failed. "Try again," said Houston, decisively. With the next effort the lieutenant withdrew the barbed point, but tore away the flesh, leaving an ugly wound. General Jackson noted Houston's wound and ordered him to the rear, but he was soon again in the thickest of the fight. He then received two bullets in his right shoulder, which at once disabled him, and he was carried from the battlefield just before complete victory crowned the arms of his comrades. Houston's recovery from these wounds was for a long time doubtful, but at length he recovered sufficiently to join his regiment just before peace was declared.

In November, 1817, Houston was appointed to an agency for the Cherokee Indians, and with a delegation of that tribe, visited Washington, D. C., to represent their interests to the Federal authorities. When 25 years old, Houston went to Nashville to engage in the study of law. He was soon admitted to the bar, and became a successful lawyer.

Governor McMinn appointed Houston Adjutant-General of Tennessee with the rank of colonel. In 1823 Houston was elected to Congress from Tennessee, and afterward re-elected by an almost unanimous vote.

In 1827 he was elected Governor of Tennessee by a large majority, but a few months after election he resigned the office, returning to his former friends, the Cherokee Indians, with whom he lived until December, 1832, when with a few friends he came to Texas. He was elected a delegate from Nacogdoches to the convention which met at San Felipe, April 1, 1833, for the purpose of framing a State constitution. From this time on Sam Houston was prominent in the affairs of Texas.

In 1835 he was appointed general of the military district east of the Trinity river. He was a member of the Consultation of 1835, also of the convention which declared the independence of Texas, at Washington-on-the-Brazos, March 2, 1836. Immediately after the Declaration of Independence, the convention elected Houston commander-in-chief of the armies of Texas.

He at once took the field, and after the fall of the Alamo and Goliad, he conducted the retreat of the scattered volunteers from Gonzales to San Jacinto, where on the 21st of April, 1836, he commanded 750 Texas volunteers that defeated 1400 Mexican regulars under Santa Anna, thus achieving the independence of Texas in this decisive battle.

During the San Jacinto battle Houston received a bullet wound in the ankle, from which he never fully recovered. In the fall of 1836 he was elected First President of the Republic of Texas. In 1839 and 1840, after his time of office expired, he served in the Congress of the Republic. In 1841 he was again almost by acclamation, elevated to the head of the Texas government.

After annexation of Texas to the Union, Houston was elected Senator from Texas to the Congress of the United States. This position he filled with marked ability until March, 1859.

June 2, 1859, Gen. Houston announced he would again be a candidate for Governor of Texas in opposition to Hardin R. Runnels. The result of the election was favorable to Gen. Houston, who defeated Runnels by a majority vote of 12,000.

At the breaking out of the war between the States, 1861-65, General Houston opposed the secession of Texas, and favored separate State action. This course not agreeing with the views of the advocates of unconditional secession, he was deposed from the office of Governor, March, 1861.

On the 18th day of March, 1861, Governor Houston left his official chair, thus ending his public career. He retired to the privacy of his home in Huntsville, Walker county, Texas, where he died July 26, 1863.

At Huntsville, March 2, 1936, a great tribute was paid Gen. Sam Houston through memorial exercises held there in his honor as part of the Centennial program. Three Governors, Gov. McAlister of Tennessee, ex-Gov. LaFollette of Wisconsin and Gov. Alfred of Texas took part in the ceremonial, which was attended by 6,000 Texans from all over the State.

RELIC OF ZACHARY TAYLOR

John B. (Red) Dunn, age 84, believed to be the oldest native born resident of Corpus Christi, owns a most valuable collection of historical relics. Among the relics is a chair once used by Col. Zachary Taylor when Corpus Christi was headquarters for the U. S. troops, under Taylor, before their invasion of Mexico in March, 1846.

PROTEST FILED AGAINST TRINITY RIVER POLLUTION

A meeting of interested citizens, held at Grand Prairie, formed an organization for preventing Trinity river pollution between Fort Worth and Dallas by packing plants in Fort Worth. J. W. Todd, Grand Prairie publisher and spokesman for the citizens, filed a protest with Assistant U. S. District Attorney John Erhard, asking Federal aid in stopping the pollution.

TEXAS COTTON SEED MILLS SHOW LARGE INCREASE

Cotton seed received at Texas mills from August 1, 1935, to February 29, 1936, amounted to 943,252 tons, nearly twice as much as Texas nearest competitor, Mississippi, and was a substantial increase over the same period last year. From this seed the Texas mills manufactured 393,776 tons of cake and meal, 232,644 tons of hulls, and 242,543,369 pounds of crude oil.

SAM HOUSTON PECAN TREE TO BE TRANSPLANTED

One of the 2,000 large pecan trees grown on the estate of General Sam Houston, at Huntsville, will be transplanted to the grounds of the State Capital, Austin, Claud Teer, chairman of Board of Control, has announced. Other trees from General Houston's home tract at Huntsville have been transplanted to schools and other public grounds over the State.

LARGE CANNING PLANT FOR SOUTH TEXAS

The largest canning plant of its kind is being built at McAllen, in the Rio Grande Valley. Costing \$150,000 and having an annual capacity of 500,000 cases of canned goods, it is scheduled for operation in October. Products to be canned are grapefruit juice, grapefruit hearts, green beans, tomatoes, spinach, blackeyed peas, creamed peas, kraut, lima beans, and other valley vegetables.

SNAKE RATTLES FOR SOUVENIRS

Here's something boys may do to earn spending money. Get snake rattles to sell to Centennial visitors. A snake dealer in a West Texas town has advertised for rattles and agrees to pay from 50c to \$1.00 per dozen. Maybe the price will pick up later, as rattlesnakes make ideal souvenirs, and are popular with visitors from Eastern States. Perhaps the rattlesnake population will be reduced, as a consequence, and this no one will regret.

MORE UNIVERSITY LANDS TO BE LEASED

The board for leasing University of Texas lands have asked for bids for approximately 12,000 acres for oil and gas development in Crane, Ector, Andrews, Ward and Upton counties, bids to be in by July 20th. It will mark the first public auction for land leases. Bids have been asked on 76 tracts of 160 acres each. Awards will be on the highest cash bonus. Notices called for a minimum of 50c an acre annual rental, one-eighth royalty, five-year leases.

NETWORK OF PAVED ROADS COVER TEXAS

Since September 1, 1929, the number of unimproved roads over the State of Texas has been decreased by 3,647 miles. Texas has 20,461 miles of State roads in its system of highways, which includes 13,139 miles of Federal highways in the State. During 1935 1,452 miles of construction was done at a cost of \$17,302,495. Bridges to a total cost of \$982,908 were built, and grade crossings to the cost of \$1,133,433.

GIGANTIC TEXAS HIGHWAY PROGRAM TO BE RUSHED

The sum of \$10,600,000 is to be spent on Texas highways this year, and as rapidly as possible. The highway department has received bids on 18 projects, the second section of a \$2,600,000 construction program, and announces plans have been completed for 142 other projects, estimated to cost \$8,000,000. These projects cover practically the entire State, and are to be rushed to completion in time, it is hoped, for Texas Centennial visitors.

OUTSTANDING 4-H CLUB GIRL

A \$300 scholarship offered by the Texas Home Demonstration Association was won by Louise Well, of Hale Center, as the outstanding 4-H club girl of Texas for 1935. There were 31 other candidates throughout the State. Miss Well has been a club member since she was 13 years old. During the past five years she has produced 3,757 pounds of vegetables, raised 772 chickens and 17 turkeys, canned 1,598 quarts of food and made 20 garments and 25 home improvement articles.

BRECKENRIDGE FUTURE FARMER BOYS WIN

For the second time in succession the Future Farmers' team from Breckenridge won the meat identification contest at the Southwestern Exposition and Fat Stock Show. This team made the highest score of 25 contesting teams.

RED BLUFF PROJECT DUE FOR EARLY COMPLETION

The \$2,800,000 Red Bluff irrigation project, under construction for more than a year, is running well ahead of working schedule and is expected to be completed by mid-July, instead of November, as first announced. This is a source of gratification to the land owners and farmers of four West Texas counties and seven water improvement districts, 40 miles north of Pecos, on the Pecos river. Water impounded by this dam, it is estimated, will irrigate 40,000 acres.

FARMERS ORGANIZE POWER AND LIGHT COMPANY

Under the rural electrification program of the United States government, the farmers of three counties, Bell, Falls and Milam, have organized a company for the production and distribution of electric energy to the farm homes of 29 rural school districts in these counties. The company has adopted the name of the Bellfalls Power and Light Company. An allotment of \$452,000 has been made by the Federal rural electrical administration for construction of a powerhouse and rural transmission lines.

COMMEMORATE GOLIAD MASSACRE

It is estimated that 40,000 persons witnessed the unveiling of monuments at mission La Bahia and San Rosario (Goliad) March 27, in commemoration of the massacre by Mexicans, 100 years ago, of Col. James W. Fannin and about 300 of his soldiers who surrendered to Gen. Urrea, the Mexican commander, after the battle of Coleto, fought near Goliad. Santa Anna ordered the execution of Fannin and his men, although terms of surrender stipulated that the Texans would be treated humanely as prisoners of war, paroled on their honor and allowed to return to their homes.

HIGHWAY BEAUTIFICATION CONTESTS ANNOUNCED

Road beautification can be advanced by the spirit of competition, believes S. C. McCarty, of Atlanta, division engineer of the State Highway Department. He is urging schools and homes to enter a contest on the subject. His aim is to promote a greater comfort in travel, and to further a Statewide appreciation of beauty and cleanliness along highways. Winners in the contest will receive handsome emblems as a reward. Separate contests are planned for schools, home and service stations. Detailed information is available at the office of Mr. McCarty at Atlanta, Texas.

TEXAS TOURIST CAMPS VS. CENTENNIAL VISITORS

Texas boasts of as fine a system of hotels as are to be found anywhere in the world, but another attraction for visitors to the Centennial this year is the State's tourist camps. Available data as to the exact number of tourist camps over the State is incomplete, but it is known that there are several thousand. The Highway Department has a record of all these camps. Some of them are clean and well regulated and some are not. It is to be hoped, for the sake of the good name of Texas, that no tourist camp will remain dirty or ill kept during the Centennial.

THE 1936 COTTON ACREAGE

A keen Texas observer of cotton production and consumption has this to say about the 1936 cotton acreage:

"To plant a large cotton acreage in the hope of selling in a free market holds grave danger. While it is true that there has been some improvement in world cotton demand, and the consumption last season was estimated at 25,500,000 bales, it must not be forgotten that, of the total, fully 14,000,000 bales were cotton raised in foreign countries. The South (an expect continued stiff competition from cotton growers of Brazil, Argentina, India, Egypt, the Sudan, Russia and 60 other foreign countries that can raise cotton."

WORK BEGUN ON SAN JACINTO MEMORIAL SHAFT

Work was begun March 27th on the \$1,000,000 564-foot shaft to be erected on the San Jacinto battlefield to commemorate the heroism of the 750 men, under Gen. Sam Houston, who won the Battle of San Jacinto, April 21, 1836. Among the prominent Texas citizens who took part in the dedication ceremonies was Andrew Jackson Houston, now living at La Porte, Texas, and the only surviving son of Gen. Sam Houston. "The night before the battle," said the son, "my father lay on the cold ground, his saddle for a pillow. He had no tent or canopy over his head, except the blue canopy of heaven. He had not a dollar in his pocket. Everyone else in the army must have been in the same plight."

In the twilight hour of a day that made history, the star of Texas rose victorious over San Jacinto.

A hundred years have passed since San Jacinto, yet that day is as yesterday to Texans, who have kept its memory a living thing.

The Texas of today is but Today's expression of all that the men of San Jacinto stood for—freedom, progress, and individuality that is a part of the harmonious whole.

No better wish for Texas could be uttered than that it may continue for the hundred years to come in the pathway marked out for its progress by that band of daring men who gave its empire birth at Goliad, the Alamo and San Jacinto.

Admiration and Bright and Early coffees are satisfying Texans of today because of their real qualities of goodness.

Duncan Coffee Company

A TEXAS INSTITUTION

Cancer in all its forms last year took a toll of 140,771 lives, while tuberculosis claimed only 75,500.

And lo a voice from heaven, saying, This is my beloved Son, in whom I am well pleased. Mat. 3:17.

NOWADAYS, FOLKS SEEM TO ENJOY CRACKERS AND CHEESE MORE THAN EVER BEFORE

WELL HERE'S ONE GOOD REASON! THEY'VE DISCOVERED THAT THE DELICATE FLAVOR OF SALTINE KRISPY CRACKERS BRINGS OUT THE RICH FLAVOR OF CHEESE AND MAKES IT TASTE BETTER!

HOME PROBLEMS

Make Two Frocks That Give Spring Wardrobes Greatest Variety

PATTERNS 2511 AND 2507

You've admired them both—the smart Matron, the lithe, slim Miss and now, which are YOU? Pattern 2511 will more than satisfy your yearning for a new spring frock, whether you're in need of little or much slimming. It's an easily-made, all-occasion style in triple sheer, printed crepe or solid-color synthetic. Young 'Teens, Twenties and Thirties favor pattern 2507. This shirt-maker in new guise adopts an all-over print. For sports or run-about wear it's fun to fashion it of silk or cotton shirting, tie silks or shantung.

Pattern 2511 is available in sizes 34, 36, 38, 40, 42, 44, 46 and 48. Size 36 takes 4 yards 39-inch fabric. Price 15c.

Pattern 2507 is available in sizes 12, 14, 16, 18, 20, 30, 32, 34, 36, 38, 40 and 42. Size 16 takes 3 1/2 yards 39-inch fabric. Price 15c. Illustrated step-by-step sewing instructions included with each pattern.

Send FIFTEEN CENTS (15c in coins or stamps (coins preferred) for each Anne Adams pattern, THIRTY CENTS (30c) for both. Write name, address and style number. BE SURE TO STATE SIZE.

Send for our SPRING PATTERN BOOK NOW! See how easily you can have a flattering, individual wardrobe that'll keep you smart all season! Trim house dresses, gray sports clothes, lovely afternoon and party frocks. Clever slenderizing styles. Misses and children's patterns. And a full story of the latest fabrics, with tips on using them to best advantage. PRICE OF BOOK FIFTEEN CENTS. BOOK AND A PATTERN TOGETHER, TWENTY-FIVE CENTS.

Address orders to Southwest Magazine Company, Pattern Department, 243 W. 17th St., New York, N. Y.

THAT ALL IMPORTANT MEAL

Our Children's Breakfast

Of the three meals served by most families each day, breakfast is probably the most important, yet the least planned as far as nutrition is concerned.

The meaning of the word itself gives us some idea of its importance. Breakfast means to "break-the-fast" of the night hours, that is, the doing without food for at least twelve to fourteen hours. In well regulated households children seldom eat after six o'clock in the evening.

If we carefully consider what breakfast means to growing children we will give it much more thought and take more time for its planning.

First, it is the meal when our stomachs are most empty—when, through the process of digestion, the stomach is ready to start work all over again.

Doctors have long recognized the fact that the first food of the day is most important to our physical well being, that the effect of this first food is also of great importance to our mental balance.

Therefore, when we permit our children to form the habit of a hasty, or no-breakfast-at-all, we are laying the foundation for many physical and mental ills.

A few years ago, when the craze for dieting swept the country, thousands of young

women wrecked their health and laid the foundation for a nervous breakdown or for an irritable disposition by drastic dieting.

It is with amusement, yet vital concern, that I recall an incident of my own youthful experience. When I was 16 years of age and in high school, a group of us girls decided it would be "stylish" to go without breakfast.

Being naturally a "hearty" eater, it was terrible punishment for me to forego breakfast, yet like so many other youngsters, I just had to be in "style."

At the end of one month my school grades began to fall and I felt all "run down." At the end of two months I was too ill to attend school. When the family doctor found the real cause of my indisposition, he explained to me the importance of regular and consistent eating. Never have I forgotten that wholesome advice. What turned out to be a minor setback, might have resulted in serious undermining of my health had my foolish notion of "no-breakfast" continued.

Some people say they have no desire for breakfast. This may be true; however, it is not necessary to eat a heavy breakfast in order to receive proper nourishment.

The type of work and the nervous energy of an individual should determine the amount of food required. Breakfast should be, by all means, the most pleasant and tasty meal served. A smile in the morning usually means "smiles all day."

Individual breakfast should be served wherever possible. By this I mean each member of the household should have the type of breakfast best suited to their special needs.

We should hardly expect daughter, who must sit most of the day in school, to require the same food, or the same amount of food, as father who plows or digs post holes. People doing mental work require easily digested food that will quicken the perception and build brain power. Those performing physical labor need muscle-building foods. Personality and disposition should be taken into consideration when selecting food.

For those of a highly nervous type, quieting foods, such as leafy vegetables, lettuce, celery and fruit juices should be a large part of their diet. Those of a slow, easy going type, should have more stimulating foods.

Perhaps the average housewife thinks she cannot serve individual breakfasts but, with a little planning and some help from the other members of the family, it is not so difficult as it may seem.

That cereals should be part of our breakfast menu, there

(Continued top of column)

is no doubt. They are time-savers, money-savers, and one form of nourishing food that is both muscle and brain building.

So many types of breakfast cereals are on the market, that, surely, the most fastidious taste can be pleased in this particular. Diets have long ago disproved that a warm breakfast is essential to proper nourishment. While it is wise for the most part to savorate cooked and ready-to-serve cold cereals, yet individual taste must be considered and taken into account.

Corn, wheat, barley and rice are the four grains mostly used in ready-prepared cereals. Some cereals are composed of entirely one grain while others are a combination of two or more grains.

In our selection of breakfast cereals, it is well to remember the manufacturer behind the product; it is only as honestly and ability will vouchsafe. Here again national-advertised products must receive due attention. They either measure up to all claims or soon disappear from the market. Deception cannot thrive for any length of time. Make your selections from standard grade merchandise.

While coffee has come to play a large part in the average American home, (and for most people it is a helpful breakfast stimulant) yet is just a part of our meal and should not be used to the exclusion of other nourishing and more important foods. When combined with a cereal, or with eggs and toast, coffee is most refreshing. However, most doctors agree that children and youths in the adolescent period do not need this particular stimulant. Under no circumstances should coffee be given children under 16 years of age. Their natural reserve of youthful strength does not require stimulants.

Milk and cream should be used freely at the breakfast meal. Cream on cereals and milk for drinking. Let me add here that persons who find coffee disagreeing with them, may drink it without discomfort by not adding sugar or cream. Sometimes it is the combination of the three that is most hurtful.

Whatever type of breakfast you serve, give time and study to the food element. With this meal often lies success or failure of the day for some members of the family.

Start the day with a smile and the right kind of food and you may solve many troublesome problems.

THE LARGEST SALE IN THE WORLD

THERE MUST BE A REASON

Unmatched flavor... delicate aroma... economy in use, are just a few. Your first package of Lipton's will suggest many more... At all grocers.

LIPTON'S TEA

will appear one of the most interesting and instructive articles that it has been our pleasure to present readers in a long time.

"The Wolf at the Door" is an article packed with the latest and most authentic information on a subject dear to the heart of every thoughtful housewife.

Watch for this unusual treat next month.

TESTED RECIPE

Grape-Nuts Bread

2 cups milk, scalded
1 cup Grape-Nuts
3 cups sifted flour
4 teaspoons double-acting baking powder
1 teaspoon salt
1/2 cup sugar
1 egg, well beaten
2 tablespoons melted butter or other shortening

Four milk over Grape-Nuts; cool. Sift flour once, measure, add baking powder, salt, and sugar, and sift again. Add egg and shortening to Grape-Nuts mixture and stir well; add flour mixture, stirring only enough to dampen all flour. Turn into greased loaf pan, 8x4x3 inches; let stand 20 minutes. Bake in moderate oven (350 degrees Fahrenheit) 1 hour and 20 minutes, or until done. Bread should be stored overnight to cut easily in thin slices.

DIZZY DEAN in rescue role!

BOYS! GIRLS! Join Dizzy Dean Winners! Get 49 Valuable Prizes FREE!

Send top from one full-size Grape-Nuts package, with your name and address, to Grape-Nuts, Battle Creek, Mich., for new membership pin and certificate and illustrated catalog of 49 nifty free prizes. You'll like crisp, delicious Grape-Nuts—it has a winning flavor all its own. Economical to serve, too, for two tablespoonfuls, with whole milk or cream and fruit, provide more varied nourishment than many a hearty meal. (Offer expires Dec. 31, 1936. Good only in the U. S. A.)

A farmers organization of about 2,000 members has been formed in Fannin county. More than 31 rural communities are in the organization.

Cherokee county farmers and orchardists will have the free use of a large fruit spraying outfit, mounted on a trailer and furnished by the Missouri Pacific railroad. The company will have a representative of its agricultural department go along with the machine to operate it.

Texas farmers are building more trench silos each year. Best size for the trench, say Carroll Lewellen, Ellwood (Fannin county) farmer is 70 feet long, 5 feet deep, 7 feet wide at the bottom and 9 feet at the top. Into this size trench silo Lewellen put 60 wagon loads of ripe grain sorghums, laying the stalks lengthwise. He covered the feed with 70 barrels of water.

A Dallas canning concern has contracted with farmers in Dallas and Rockwall counties for 500 acres of sweet corn for canning, and expects to contract for 500 acres more; also 300 to 400 acres of beans, 300 to 400 acres of tomatoes, and large acreages of spinach, lima beans, pinto beans, English peas and beets.

Total lower Rio Grande Valley fruit and vegetable shipments this season are 10,915 carloads, of which 2,874 cars were shipped by truck. This compares with 8,764 carloads shipped by rail and truck last season.

A food and feed program of production for home use, soil conservation by crop rotation, planned terracing and erosion control, improved pastures, use of better seed, a livestock program, accurate farm book-keeping, and adult co-operation with juvenile farm training, all constitute a wide and varied farm program adopted by the farmers of Navarro county, through the county agricultural council, soil conservation association and vocational teachers.

Ellis county 4-H clubs so far this year are 27, with an enrollment of 350, and 150 more members expected.

A dairy association has been formed of Fort Bend county dairymen. They furnish milk and cream on the Houston market.

Meetings are being held in Grimes county to stimulate the growing of more peanuts this year as a cash crop.

An extensive live-at-home program is being laid out in Grayson county by the county agent and agricultural council. A series of meetings is being held in different parts of the county.

The poultry dressing and packing plant at Cuero will be enlarged this season to give employment to at least 50 persons. Construction of additional building facilities are under way. Annual payroll is expected to be around \$50,000. The egg-breaking plant will handle approximately 30,000 dozen eggs a day.

The Schleicher county 4-H clubs held their seventh annual show in Eldorado last month. There were 42 lambs entered in the individual class and 21 groups of five lambs. A barbecue dinner was served, and many valuable prizes awarded the winning entries.

Diversification more extensive than ever is the program in Fannin county this year. Increased acreage in alfalfa, onions, soybeans are contemplated, as well as 500 acres of cucumbers. Contracts have already been signed for this year's cucumber crop at a price which should yield excellent returns for the growers. The yield in this section runs about 60 bushels to the acre and growers usually receive about \$40.00 to \$75.00 per acre.

Pruning demonstration in Grayson, Collin, Hunt and other Northeast Texas counties are being held by J. F. Rosborough, extension service horticulturist. Fruit prospects in February was reported as favorable.

Northeast Dallas county is experimenting with soil-building legumes in about 40 projects on 25 farms. The purpose is erosion control as well as soil building, and supplementary crop diversification.

Bailey county 4-H club boys made an enviable record on fattening calves on low-priced feed, locally grown. They produced baby beef at a cost of only 3.77 cents per pound on grain sorghum heads and cotton seed meal, with roughage and ground limestone.

A milk festival and dairy school will be held at Mount Pleasant, Titus county, in June, according to plans of the local committee working in co-operation with the Texas Centennial. A large number of dairymen and thoroughbred cattle breeders have signified their intention of attending the festival.

Cover crops are the best defense against the destructive West Texas winds, according to H. H. Bennett, chief of the soil conservation service. Tens of thousands of acres in the Panhandle and Plains country have been stabilized by terracing, contouring and seeding to adaptable soil-holding vegetation. The conservation program calls for a large amount more of this work.

Texas farmers are due to profit to the extent of about \$17,500,000 by the appropriation bill just signed by President Roosevelt. This is to fulfill all old government obligations left over by the AAA, including the corn-hog program, land rental, cotton and cotton adjustment payments. Nearly every county in the State will receive a part of this appropriation.

As a side line, Rockdale will go into tomato and cantaloupe raising. Buyers from distant markets have agreed to purchase the crop and loading facilities are being provided.

Sheep breeders and wool growers of Dallas have formed an association for the purpose of improving their flocks and quality of products. A meeting was held recently and new officers for the year elected and installed.

Four Central Texas counties, in the heart of a rich dairying section, McClen-nan, Bosque, Coryell and Falls, will build during this year at least 1,000 trench silos for the preservation of green feed for dairy herds.

The large Surinam toads, widely advertised as the worst enemy of all flying insects, have arrived in Beaumont by boat from Cuba, and were distributed to farmers throughout the county for experimentation purposes.

The dairy cow population of Fannin county has increased within the past five years from 8,262 to 13,023 head, according to Bureau of Census. In 1930 the county's daily volume of milk sold was around 5,000 pounds, and in 1935 it was from 35,000 to 50,000 pounds daily, in addition to sale to cream stations. Dairy farmers now have a steady source of income, milk checks are received twice monthly, and they operate on a cash basis.

Shipping by water offers the prospect for an unlimited outlet for Lower Rio Grande Valley fruits and vegetables. A trial shipment of about three carloads of cabbage, beets, carrots, spinach and parsley was made to Boston from San Benito through Port Isabel. It took two weeks to complete the shipment and sale and the products arrived in perfect condition at a saving in freight costs of over 50 per cent.

Anderson county will increase its watermelon acreage. More than 200 acres are to be planted in the Salmon community, mostly of the Tom Watson variety.

A Titus county farmer, 75 years old, cleared \$111.00 from a half acre garden last year. His total expense, aside from his own labor, was around \$50.00 and his total gross revenue \$161.

The staff of the resettlement administration, District 16, at Donna, Texas, has been increased by fourteen additional assistants. The district comprises Hidalgo, Cameron, Willacy and Starr counties. The office is now in a position to handle around \$50,000 a week in resettlement loans.

Crandall county Future Farmers will hold a spring livestock and poultry show in connection with their many farm activities. Some of their plans are: Two or more crops to each student, broiler and fryer production, pork and pig projects, cotton, cantaloupes, Irish potatoes, onions, peppers, watermelons, grain sorghums, corn and peas. Under vocational agriculture in the Crandall high school, 528 acres of land have been terraced, 800 hens culled, pecan trees top-worked and three orchards set out.

Cherokee county is working a rodent extermination program this year. The work is under the United States Biological Survey.

Of the 15,074,000 pounds of mohair produced in the United States, in 1935, 13,000,000 was produced in Texas, according to the figures released by the United States Department of Agriculture, but there is a feature of the report not so good. Texas mohair crop is gradually falling off. In 1931 the Texas output was 16,400,000 pounds, 1932 14,000,000 pounds, 1933 13,700,000 pounds, and in 1934 13,500,000 pounds.

High-Speed Living Taxes Digestion

RUSH HOUR—tired nerves tighten, often send us to the table in no shape to enjoy food. Camels have the pleasant effect, during and after meals, of aiding and promoting digestion.

Smoking Camels found to have a positive beneficial effect upon Digestion...

Our modern "eat-and-run" way of living is hard on digestion. Experiences with indigestion are common! Hence unusual interest attaches to the following fact: that smoking Camels has been found to have a marked beneficial effect in aiding digestive action. You'll find Camels milder too, packed with the rich enjoyment of choice tobaccos.

Turn to Camels for digestion's sake...for the pleasure to be found in Camel's costlier tobaccos. Camels set you right!

A SENSATION! Henry Taft Snowdon, '34, inter-collegiate wrestling champion. Snowdon says: "It's my experience that smoking Camels after meals and between meals aids digestion."

OTIS BARTON, inventor of the "bathysphere," says diving tests condition—especially digestion. "Camels help make my food digest better."

LESTER STOEFFEN, former U.S. Doubles Champion, says: "Camels help food to digest easier. Eating at odd hours all over the country, I smoke Camels for digestion's sake."

COSTLIER TOBACCOS!
Camels are made from finer, MORE EXPENSIVE TOBACCOS—Turkish and Domestic—than any other popular brand.

"CAMELS ARE A FAVORITE with us here," says Mr. Joe Moss, who presides over New York's Hollywood Restaurant (above). "I see Camels on lots of tables. We've found that success comes through giving people the best. The fact that Camel uses costlier tobaccos and people prefer Camels shows that they appreciate the same policy in other lines too."

GREETINGS, FRIENDS:

As I pass along the Highway of Life and see so many beautiful things around me, my heart rejoices and I am thankful. "Behold," says the poet, "my heart leaps up when I see a snow in the sky."

Day after day my heart beats with rhythmic measure as I behold all the beauty in life. Springtime, leafing trees, budding flowers, song of birds, thrill me and make me so happy to be alive. Later comes the ripening grain, luscious fruits and sweet smell of new mown hay to make summer a happy event in life.

When the cold winds of winter blow and the majesty of snow-covered fields sweep before me, my heart sings on, although I am humbled by the wonder of it all. Furthermore, I am thankful and comforted with the assurance that beneath the ice and snow tiny buds and seeds are nestling to await that great morning when the Ruler of the Universe shall say, "Awake, for it is morning, come forth and show the handiwork of thy Maker." Best of all, in addition to these blessings, are friendly men and women, boys and girls, with whom I can talk and walk hand-in-hand down through the passing years.

The letters from our many Shut-Ins are an everlasting delight. The appreciation they express for the work of club members shows their gratitude after long years of patient suffering. It is so unselfish on the part of club members to share the mite of sunshine they have with others less fortunate. Spreading sunshine means more sunshine for you. The more we give the more we receive. Are YOU sharing your sunshine? Remember someone—somewhere—needs YOU.

Your letters brighten Aunt Mary and brighten the Boys' and Girls' Page in this newspaper. Hundreds of dear souls look to us for happiness. So write often—we need every person in the great Southwest to help in this work of spreading sunshine.

Your friend,
(Signed) AUNT MARY.

True Stories From the Bible
BROTHERLY LOVE—THE STORY OF JOSEPH

"And Jacob served seven years for Rachel; and they seemed unto him but a few days, for the love he had for her."—Gen. 29:20.

In this simple statement we have the background of love wherein Joseph, the son of Rachel and Jacob, was born. Throughout the history of the

(Continued top next column)

human race we find men and women who step upon pedestals of fame from unions of deep and lasting love. Love between fathers and mothers instill within the hearts of their children tender depths of feeling and profound respect.

As was the custom of ancient days, Jacob (who was to become the father of Joseph) had two wives who were sisters—Leah, the elder, and Rachel, the younger, whom he loved the most.

As Leah was loved the least the good book tells us that God favored her and she bare Jacob four sons.

When Rachel saw she bare Jacob no children she was very sorrowful and gave her maid to him for a wife, who bore him two sons.

At last, we see Jacob the father of ten sons and one daughter.

At this time there was to come into the world a man-child who would leave his foot-prints on the sand of time. We read: "And God remembered Rachel and God hearkened to her . . . and she bare a son . . . and called his name Joseph."

All the years that Jacob's children were coming into the world he had been serving his father-in-law, Laban, for the hands of his two daughters, Leah and Rachel. For many years Jacob had been absent from his own people and he was homesick. During these years of service Laban had prospered greatly, for Jacob was a shrewd trader and had laid up wealth for both himself and Laban. However, Laban persuaded Jacob to stay a little longer and made a bargain wherein Jacob gained greatly.

The journey of Jacob and his household back to the land of his father is too well known to repeat in detail here.

So again we see Jacob and his household journeying from Bethel to the land of Canaan, promised by God to Jacob. On the journey Rachel died as she gave birth to a second son, Benjamin, (the twelfth son of Jacob and the second of Rachel). We can imagine the grief of Jacob and the little lad, Joseph. Now, as Jacob beheld this second son of his most beloved wife he loved him dearly, although all the love of his heart was wrapped up in Joseph.

During the years that followed, as Jacob dwelt in the land of Canaan, we know very little of Joseph's life. No doubt he studied and worked and lived as would any other favorite son of a prosperous man of that time. However, Jacob was wise in the ways of God and tried to rear his children according to God's laws.

"Joseph, being 17 years old, was feeding the flock with his brethren." Now, it seems as though Joseph's brethren, who were older than he, did not follow the instructions of their father and did evil things. Joseph was much disturbed about this and went and told his father.

"Now Israel (or Jacob the father) loved Joseph more than all his children . . . and he made him a coat of many colors."

When Joseph's brethren saw that their father loved him so dearly, they refused to even speak kindly to him, and at last came to hate him.

It was then Joseph dreamed about snakes and about the sun and moon and stars, and how eleven of each made obeisance (bowing) to him. Unwisely he told these dreams to his brothers. This made them hate him even more, and they plotted how they might be rid of him. Jealousy had hardened their hearts.

So it came to pass that one day as Joseph's brothers were feeding the sheep in Shechem his father sent him to see how well things were going with the flocks. When the brothers saw Joseph coming they conspired together how to put him away.

The brothers wanted to kill him, but one of the brothers, Reuben, persuaded them to cast him into a pit in the wilderness; which they did, after stripping him of his coat of many colors.

As the brethren sat down to eat, they saw a caravan of traders passing by and decided to sell Joseph to the traders for twenty pieces of silver as a slave and thus do

charge of all prison affairs. In this way Joseph came to know two of Pharaoh's servants, his butler and baker, who were in prison also at this time.

EDITOR'S NOTE: The Story of Joseph will be concluded in the May issue of our Magazine Section. Because we have received so many complimentary letters about this series of "True Stories from the Bible" we are unable to acknowledge them all personally, but herewith thank the writers collectively. Please write to let us know what kind of story you like best; perhaps some day we can make your choice come true on this page.

Watch for the series of short stories coming soon, "Little Mysteries from Far Away."

Sunshine News

There are not so many letters this month, but lack in number make up in depth of feeling.

Beulah Lamb, Hazel, Ky., writes: "How my heart goes out for all who suffer, and it is sunshine that makes the days less dark. God reward all who are kind-hearted. I for one am deeply grateful for all I have received, although handicapped by lack of strength and postage. I shall never cease to pray that God will bless you all."

Beulah is a lovely young woman afflicted with nerve trouble. She has neither walked nor talked since birth, yet her mind is clear and she can read well. Especially does she enjoy the sunshine letters. She is 31 years of age. Surely sunshine to such a person, hungering for love, and so willing to share it with others, is a great work.

Mrs. A. M. Byrd, Seymour, Texas, writes how she enjoys the Boys' and Girls' Page and especially the "True Stories from the Bible." We are glad to hear from Mrs. Byrd.

Aunt Agnes Pick, Berkley, California, writes such a sweet letter, wishing to be remembered to all club members.

Aunt Susan Hughes, 1804 25th St., Galveston, Texas, has been ill most of the winter. I am sure she will appreciate a word from the many whom she has cheered. Write her today.

Mrs. Hannah J. Collins, Seattle, Wash., wishes to thank everyone who has been so kind to her. We appreciate Mrs. Collins and are happy to add our mite to her store of sunshine.

Edna and Joe Hammock, Normangee, Texas, who are so faithful in their club work, send greetings to all friends.

Mrs. W. A. Lewis, Hamilton, Texas, sends love and greetings to all.

Lucy B. Newman, Woodleigh, N. C., wants to thank all who have sent sunshine her way. She is still a Shut-In, but thankful for the blessings of sight and friends. Cheer sent out from such wonderful souls make the world a better place in which to live.

Mrs. Mintie Squires, Merkel, Texas, sends greetings to the club and to all members. "God bless you all," she writes.

Why not write us a letter TODAY. We will rejoice in the service you are rendering the club. Write to Aunt Mary, Route 5, Box 179-B, Fort Worth, Texas.

The types of formulae derived appear different but successful mixtures contain approximately the same distribution in protein, carbohydrate and fat. Two-thirds of the total calories are supplied in milk and one-third in added carbohydrate. The formulae contain 10-10% in fat and 10-10% in carbohydrate.

Most infants tolerate whole milk. But those with irritable gastrointestinal tracts, limited digestive capacities or allergic sensitivities, require milk with its fat content reduced. As a result, milk has been altered chemically in various ways to make it especially suitable for each type of infant feeding problem. The adjacent column reveals indications for various milks.

But the ten milks available for infants with Karo. It is safely modified of formulae devised. Karo contains of Karo. It is adapted to every type of formula. Karo is a natural product of a non-allergic carbohydrate, not readily fermentable, well tolerated and the best.

Consult your Consulting Service for Physicians is available for further clinical information regarding Karo. Please Address: Cohn Products Sales Company, Dept. 12, Battery Place, New York City.

GOOD TO THE LAST DROP

A LITTLE FUN Jokes to Make You Laugh

Quiet Indeed

"Can we play store in here, mamma?"
"Yes, but you must be very quiet."
"We will, mamma. We'll pretend we don't advertise."

All Depends

Passenger—Have I time to say good-bye to my wife?
Conductor—I don't know, sir; how long have you been married?

No Check—Oh, Heck!

Johnny, a prep school student, wired his father as follows:
"No mon. No fun. Your son."
Father wired back: "How sad. Too bad. Your dad."

Wife—What do you expect to raise in your garden this year?

Hubby—Oh, the same as last year, I suppose—Jones's Plymouth Rocks and Smith's Leghorns.

Strategy

Housewife—"My husband was a tramp once, too, but he suddenly decided to make a man of himself."

Tramp—"No wonder, lady, with such a beautiful and cultured woman to inspire him."

Housewife—"Well, come in and I'll see if I can't fix you some sandwiches."

Not Personal

The teacher had explained the cruelties of Nero, and believed he had made an impression. He asked the class: "Now, boys, what do you think of Nero?" Do you think he was a good man?

No one answered. The teacher singled out Tommy.

"Well," returned the boy after a long pause, "he never done nothin' to me."

Complaints

An old lady approached a postmaster and said: "I've been expecting a package of medicine for a week and it hasn't come yet."

"For a weak back?" asked the postmaster. "What do you take for it? I have a weak back myself."

"I'm not interested in your back," replied the lady. "What I want is my package of medicine."

"Very well," said the postmaster, "please fill out this form and state the nature of your complaint."

"Well," said the irate woman, "if you really must know, it's gas on my stomach."

No Amateur

"I hear there's a new baby at your house, Johnny," said the teacher.
"I don't fink it's new, teacher," replied Johnny, feelingly. "The way he cries sounds like he's had lots of 'perience."

Real Courtesy

A certain middle aged spinster was struggling with a hot cup of coffee in a small-town railway station, trying to gulp it before the train pulled out. A cowboy, seated a couple of stools away, noted her plight, and hearing the conductor shout, "All aboard," he came to the lady's rescue.

"Here, ma'am, you can take my cup o' coffee," he said. "It's already sauced and blowed."

Jest Scratchin'

"I hear, Uncle Wash," said Doctor Brown, "that all your folks have the itch."

"Yas suh, Doctah," replied the old darkey, "de good Lawd has done 'flicted we-all dat way."

"And are you doing anything for it, Uncle?"

"Oh, yas suh, Doctah."

"What are you doing?"

"We-alls is jest scratchin', Doctah."

The Sign Language

A teacher with a record of long years of service in the grade schools was driving her car when the traffic cop raised his arms in a vain attempt to halt her progress. By means of repeated blasts on his whistle he finally halted her a half block from the scene of her misdemeanor.

"Don't you know," he inquired politely but severely, "what it means when I raise my hand?"

"I ought to," she answered, "I've taught school long enough."

The Most Afflicted Person

Hubby—Who do you think was the most afflicted person in history?

Wife—Mrs. Job, of course.

Hubby—You mean Job, don't you?

Wife—No. He had his troubles, but Mrs. Job had to put up with Job.

What a Name!

A young wife, wishing to announce the birth of her first child to a friend in a distant city, sent this telegram:

"Isaiah 9:6: 'For unto us a child is born, unto us a son is given.'"

Her friend, not familiar with the Scriptures, said to her husband:

"Margaret evidently has a boy who

weighs nine pounds and six ounces, but why on earth did they name him Isaiah?"

Explaining Son's Absence

A Washington mother was very much put out because the teacher insisted on a written excuse explaining her son's absence from school following a severe snowstorm. Whereupon the mother sat down and dashed off the following note:

"Dear Miss Kitty: Little Eddie's legs are 14 inches long; the snow was 18 inches deep. Very truly yours, Mrs. Johnson."

Bill Nye's Compliments

Bill Nye, America's greatest humorist during his lifetime, wrote the following about a rival newspaper editor:

OUR COMPLIMENTS

We have nothing more to say of the editor of the Green River Gazette. Aside from the fact that he is a squint-eyed, consumptive liar, with a breath like a buzzard and a record like a convict, we don't know anything against him. He means well enough, and if he can evade the penitentiary and the vigilance committee for a few more years, there is a chance for him to end his life in a natural way. If he don't tell the truth a little more plentifully, however, the Green River people will rise as one man and churn him up till there won't be anything left of him but a pair of suspenders and a wart.

Rest in Peace

The Irish foreman found one of his men sleeping in the shade.

"Slape on, ye idle spalpeen," he said, "slape on. So long as ye slape ye've got a job; but whin ye wake up, ye're fired."

Proud Mother

Neighbor—"So your son is on the college football team. What position does he play?"

Proud Mother—"I am not sure but I think he is one of the drawbacks."

Tells others what he smokes

JACK WARLOW has used P.A. for 18 years. "I never rolled any other smoke with such fine flavor and free of any 'bite' the way P.A. is," he says. "For a cool, pleasant smoke, try Prince Albert." Prince Albert is guaranteed to please you too. Read our no-risk offer. Try mild, mellow P.A. in a pipe too.

SHOWING THE FINE POINTS of Prince Albert roll-your-own tobacco is a hobby with Jack Warlow. "It's just being friendly," he says, "to tell other 'makin's' smokers that P.A. is 'crimp cut' so that the grains don't blow away."

PRINCE ALBERT

THE NATIONAL JOY SMOKE

70 fine roll-your-own cigarettes in every 2-ounce tin of Prince Albert

EXACTLY HOW TO TRY PRINCE ALBERT AT OUR RISK

Roll yourself 30 swell cigarettes from Prince Albert. If you don't find them the finest, tastiest roll-your-own cigarettes you ever smoked, return the pocket tin with the rest of the tobacco in it to us at any time within a month from this date, and we will refund full purchase price, plus postage. (Signed) R. J. Reynolds Tobacco Company, Winston-Salem, North Carolina.

Poultry Facts

By F. W. Kazmeier, Bryan, Texas.

Price of Eggs

Eggs "nose dived," so to speak, around 13c per dozen for average run eggs. This, of course, is a low price, but don't forget eggs were a good price from July, 1935, to February, 1936—eight months. They will probably remain low in price for the next 30 days, or until egg-buyers for cold storage have all they want. By May or June prices should rise and by July egg prices will again be profitable. There are about two months every year when egg prices are below, or very close to, cost of production; the other 10 months they can be sold on the market at a profit.

Why not store your eggs when they are low-priced? If you are in a community where many eggs are produced you should be able to work up some co-operative plan of collecting, candling and hauling the eggs to some good storage concern. If you have that in mind, remember it pays to store only high grade, fresh and carefully selected eggs, packed in new cases and fillers. Do not feed any cotton seed meal to hens whose eggs you intend to store. This is important, don't over look it. Gather the eggs every two hours, keep them in a cool and fairly damp place. You might be able to build a

Every Day, Fallacy

When eggs go down in price people get discouraged, throw up their hands and quit. While eggs may be cheap now, remember in a few months eggs will again bring a premium. Chicks or pullets you buy now will lay eggs when the price is higher. Make your plans accordingly. Some people are so discouraged they are not going to buy any chicks or pullets because eggs are low-priced. When eggs go up these people jump out and buy pullets, at a high price. Now is the time, when eggs are cheap, to buy your baby chicks and pullets, because you can buy them at a much lower price, and by the time they are of laying age eggs will again bring from 20 to 30 cents per dozen.

April in the Poultry Yard

Look out for mites in the poultry houses. We still believe good old common kerosene, crude oil or crank case oil, is best to kill these blood-sucking parasites. Just don't make the mistake and wait too long before using it liberally, on roosts, roost supports and nest box supports, or any other place you may find them. Warm weather breeds mites by the millions and the longer you put off killing them the bigger the job.

Ventilation

Warm weather requires opening the houses more. Don't allow the houses to get too hot, especially at night when the chickens are on the roost. Open windows and doors, and if necessary cut additional openings, because the birds' comfort means much. Use wire screens over all windows, shutter and door openings. It is a good idea to have these ventilating openings on all four sides of the house. In very hot weather move roosts out into the center of air circulation, or in some cases it may even be better to move roosts out in front of the houses, right out in the open.

Care of Four-Week Pullets

The buying and selling of four-week-old pullets is becoming more and more of a business; therefore, a few words about their care will be in order. Change surroundings, new feed, new feeding equipment, new type of brooding, etc., are a lot of things for the little four-week-old pullets to learn in one day, so the best recommendation is to treat them like baby chicks the first few days, watch them closely, especially at roosting time.

In cold weather, they require a brooder or some means of keeping them warm for another week or two.

Close confinement in shipping may start "picking" each other, which is easily stopped if you get right after it, by painting all "picked" or injured places with common coal tar or roof paint.

The Inside Story of

MELVIN PURVIS AMERICA'S NO. 1 G-MAN

MELVIN PURVIS, formerly the ace G-Man of the Department of Justice... who directed the capture of Dillinger, "Pretty Boy" Floyd, "Baby Face" Nelson, and scores of other public enemies. Mr. Purvis reveals here the methods used in capturing desperate criminals. For obvious reasons, the names of the characters involved have been changed. This inside story of the capture of typical law-breakers is herewith published as clinching proof that CRIME DOES NOT PAY.

THE SPLIT WIRE... OR, HOW MELVIN PURVIS CAPTURED THE McMANUS TRAIN ROBBERS

A BREAKFAST TREAT THAT CAN'T BE BEAT

Crisp, Crunchy Post Toasties!

"HERE'S the sweetest breakfast dish ever," says Melvin Purvis, "a great big bowl of Post Toasties!" And when you first taste those delicious, crunchy-crisp Post Toasties—you'll agree with him! Mm, what a breakfast treat! Post Toasties, you see, are made from the tender, sweet little hearts of the corn, where most of the flavor is. And each golden flake is toasted double crisp

so it will keep its crunchy goodness longer in milk or cream. No wonder folks everywhere call Post Toasties "The Better Corn Flakes!" So get your Post Toasties now!... and join the Junior G-Man Corps! Melvin Purvis wants you as a member!

A POST CEREAL—MADE BY GENERAL FOODS

JOIN MY JUNIOR G-MEN!

BOYS AND GIRLS!... I'LL SEND YOU FREE THIS REGULATION SIZE JUNIOR G-MAN BADGE... ENROLL YOU ON THE SECRET ROLL OF MY JUNIOR G-MEN... AND SEND YOU A BIG EXCITING BOOK THAT TELLS YOU ALL ABOUT CLUES, SECRET CODES, INVISIBLE WRITING, SELF-DEFENSE... OTHER 'INSIDE' INFORMATION THAT ONLY G-MEN KNOW... READ BELOW HOW TO JOIN AND GET THESE AND MY OTHER FREE GIFTS!

TO JOIN: Get 2 packages of Post Toasties. Send the box-tops, with the coupon at the right, to Melvin Purvis. He'll immediately enroll you as a member of his Junior G-Man Corps... send you his official Junior G-Man badge of polished gold-bronze design on satin-gold background, enameled in blue. Special pin badge for girls shown at left. You'll also get a big, thrilling book that tells how to become a Junior G-Man, and a catalog of OTHER GRAND FREE PRIZES! Send the coupon right now!

Melvin Purvis,
